Sponsors	VIII
List of Participants	IX
Symposium Programme	XI
Published Proceedings from Previous Symposia	XIII
Graf, L.: 9th International Chrysophyte Symposium in Yamagata, Japan, September 2016	XV
Taxonomy	
Hernández-Becerril, D.U., Sapedro, N. & Garcés, E.: The chrysophyte genera <i>Clathromonas</i> and <i>Paraphysomonas</i> from the Catalan coast (NW Mediterranean Sea)	1
Kapustin, D.A. & Gusev, E.S.: Silica-scaled chrysophytes from West Java (Indonesia) including description of a new <i>Chrysosphaerella</i> species	11
Maltsev, Y., Andreeva, S., Kulikovskiy, M. & Podunay, J.: Description of <i>Aneumastus mongolotusculus</i> sp. nov. (Bacillariophyceae, Mastogloiales) from Lake Hovsgol (Mongolia) on the basis of molecular and morphological investigations	21
Biodiversity	
Bessudova, A., Tomberg, I., Firsova, A.D., Kopyrina, L.I. & Likhoshway, Ye.V.: Silica-scaled chrysophytes in lakes Labyntkyr and Vorota of the Sakha (Yakutia) Republic, Russia	35
Pang, W., Zhuang, J. & Wang, Q.: Chrysophytes from the Great Xing'an Mountains, China	49
Gusev, E.S., Doan-Nhu, H., Nguyen-Ngoc, L., Guseva, E.E. & Phan-Tan, L.: Silica-scaled chrysophytes from Cam Ranh Peninsula (Khanh Hoa Province, Vietnam)	63
Gusev, E.S., Perminova, O.S., Guseva, E.E. & Startseva, N.A.: The genus <i>Mallomonas</i> in small urban rivers in Nizhniy Novgorod (Russia)	77
Culture work	
Ishii, K.-I., Liu, W. & Sawayama, S.: Lipid formation and morphological changes in <i>Chaetoceros</i> (Bacillariophyceae) species under nitrogen-limited conditions	89
Palaeoecology	
Siver, P.A.: Potential use of chrysophyte cyst morphometrics as a tool for reconstructing ancient lake environments	101
Kato, Y. & Suto, I.: Fossil chrysophyte cysts as potentially useful paleoceanographic indicators: Comparison with Southern Ocean diatom assemblages	113
Kato, Y.: Late Miocene to Pliocene fossil chrysophyte cysts from ODP Site 689 and DSDP Site 513, the Atlantic sector of the Southern Ocean	131
Jordan, R.W. & Matsuoka, K.: Numbering or naming stomatocysts? – a reassessment of the two approaches	157
