

Contents

Foreword	VIII
Preface	X
Contributors	XIII

Part A	
Practice of Occlusal Splint Therapy and Coordinative Training	1
1 INTRODUCTION	3
Jens C. Türp	
Craniomandibular Dysfunction	3
2 STRUCTURED TREATMENT APPROACH IN PRACTICE	11
Hans J. Schindler	
Diagnostics	12
Treatment of Painful CMD	23
Typical Painful CMD Case Studies: From History Taking to Treatment	24
3 INTEROCCLUSAL REGISTRATION IN SPLINT THERAPY	45
Daniel Hellmann, Jens C. Türp	
Method of Closing Movement onto a Frontal Plateau	45
4 SPLINT FABRICATION	53
Daniel Hellmann	
Model Fabrication	53
Model Mounting	54
Modular Rehabilitation Splint System	54
MRS Basic Splint (MRS 0)	55
Modular Modification of the MRS 0	61
Fabrication of an Efficient MRS 1 (Michigan Concept) Using CAD/CAM	64
5 COORDINATIVE TRAINING FOR FUNCTIONAL REHABILITATION	67
Daniel Hellmann	
Pain and Motor Adaptation	67
Pain Adaptation and Rehabilitation	68
Rehabilitation of the Craniomandibular System	68
Practice of Coordinative Training in Functional Rehabilitation	69
Case Study	74
Indication for Coordinative Training and Monitoring Outcome	79

Part B

Aspects of Painful CMD and Splint Therapy Explored in Depth

81

6

RISKS

83

Jens C. Türp, Hans J. Schindler, Alfons Hugger, Marc Schmitter

Definition of Risk

83

Jens C. Türp

Definition, Calculation, and Interpretation of Odds Ratio

83

Jens C. Türp

Myoarthropathies of the Masticatory System

85

Jens C. Türp

Occlusion and CMD

89

Jens C. Türp

TMJ Compression and Distraction

93

Jens C. Türp, Hans J. Schindler, Alfons Hugger

Bruxism

95

Marc Schmitter

7

DIAGNOSTICS

105

Lydia Eberhard, Nikolaos Nikitas Giannakopoulos, Hans J. Schindler

Staged Model of CMD Diagnostics

105

Hans J. Schindler

Differential Diagnoses

106

Hans J. Schindler

Criticism of Classic Taxonomies

107

Nikolaos N. Giannakopoulos

Quantitative Sensory Testing and Its Practical Relevance

109

Lydia Eberhard

Criticism of Samples Included in Treatment Studies

113

Nikolaos N. Giannakopoulos

8

TREATMENT

117

Hans J. Schindler, Alfons Hugger

Effectiveness of Treatment Options for Painful CMD

118

Possible Mechanisms of Physiotherapy in Painful CMD

121

Treatment Results from Dental Practices

122

Rehabilitation in Functional Therapy

123

Alfons Hugger

9	NEUROBIOLOGIC BACKGROUND OF OCCLUSAL SPLINT THERAPY	129
	Hans J. Schindler	
	Muscle Physiology	129
	Temporomandibular Joints	135
	Jaw Muscle Pains	138
	TMJ Pains	140
	Explanatory Models of Chronification of Pain	141
	Motor Adaptation to Pain	142
	Muscle Regeneration Potential	143
10	NEUROBIOLOGY AND BIOMECHANICS OF OCCLUSAL SPLINT THERAPY	145
	Hans J. Schindler	
	Traditional Hypotheses	146
	Current Hypotheses	147
	Pathophysiologic Effects of Postural Changes: Is Occlusal Splint Therapy a Cross-Segmental Treatment Modality?	152
11	CEREBRAL REPRESENTATION OF OCCLUSAL SPLINT THERAPY: FUNCTIONAL MRI STUDIES	157
	Martin Lotze, Bernd Kordaß, Hans J. Schindler	
	Cerebral Representation of Neuromuscular Activity	158
	Modification of Cerebral Activation Patterns by Occlusal Splint Therapy	159
	Cerebral Activation Patterns and Pain	160
	INDEX	163
