

Contents

Series Preface — V

Preface — VII

Part 1: The Past History of Our Attempts to Detect C-command

Hajime Hoji

From Compatibility to Testability – Some Historical Background — 3

Ayumi Ueyama

On Non-individual-denoting *So*-words — 33

Emi Mukai

Research Heuristics in Language Faculty Science — 57

Part 2: The Correlational Approach

Hajime Hoji

The Key Tenets of Language Faculty Science — 117

Hajime Hoji

Detection of C-command Effects — 163

Hajime Hoji

Replication: Predicted Correlations of Judgments in Japanese — 223

Daniel Plesniak

Predicted Correlations of Judgments in English — 329

Daniel Plesniak

Implementing Experiments on the Language Faculty — 357

Part 3: LFS as an Exact Science

Hajime Hoji and Daniel Plesniak

Language Faculty Science and Physics — 387

Hajime Hoji and Daniel Plesniak

Conclusion: Why Language Faculty Science? — 429

Index — 449
