Preface — VII

List of abbreviations — XIII

Introduction — 1

About the book — 1

About Koshikijima Japanese — 4

1 Introduction to Japanese phonology — 10

1.1 Segmental phonology — 10

1.1.1 Vowels — 10

1.1.2 Consonants — 12

1.2 Syllable structure — 14

1.2.1 Mora and syllable — 14

1.2.2 Syllable weight — 16

1.2.3 Syllable structure — 17

1.3 Lexical strata — 17

1.4 Basic concepts — 19

1.4.1 Pitch, accent, and tone — 19

1.4.2 Intonation — 20

1.4.3 Prosody — 21

1.4.4 Neutralization — 21

2 Typological features of KosJ word prosody — 22

2.1 Two-pattern system — 22

2.2 Phrase accent — 28

2.3 Mora and Syllable — 31

2.4 Directionality in accent computation — 37

2.4.1 General typology — 37

2.4.2 Right-to-left directionality — 38

2.4.3 Left-to-right directionality — 41

2.4.4 Hybrid systems — 42

2.5 Compound accent — 46

2.5.1 Right-dominant dialects — 46

2.5.2 Left-dominant dialects — 49

2.5.3 Hybrid system — 51

2.6 Distinctive feature — 53

2.7 Two-peak vs. one-peak systems — 57

3	Emergence of a secondary H Tone — 62
3.1	One-peak vs. two-peak systems — 62
3.2	KosJ main stream today — 65
3.3	KosJ-Kuwanoura — 68
3.4	Comparison — 69
3.5	Historical considerations — 71
4	Syllable and accent — 76
4.1	From mora to syllable — 76
4.1.1	A puzzle — 76
4.1.2	Solution — 80
4.1.3	An alternative scenario — 85
4.1.4	Implications — 86
4.2	Accent of alphabetic acronyms — 87
4.2.1	Alphabetic acronyms in Japanese — 87
4.2.2	Alphabetic acronyms in KosJ — 89
4.3	Diphthongs — 94
4.3.1	Background — 94
4.3.2	Diphthongs in KosJ — 97
4.3.3	Diphthongs in other Japanese dialects — 104
4.3.4	Conclusions and implications — 109
4.4	Superheavy syllables — 111
4.4.1	Background — 111
4.4.2	Pseudo superheavy syllables — 115
4.4.3	Accent tests in other dialects — 122
4.4.4	Summary — 127
5	Postlexical deletion of lexical H Tone — 128
5.1	H tone deletion in KosJ-Teuchi — 128
5.1.1	Phonological dominance — 128
5.1.2	Postlexical H tone deletion — 130
5.1.3	Lexical vs. boundary tone — 132
5.1.4	Word-level and sentence-level interaction — 134
5.1.5	Comparison with English rhythm rule — 137
5.2	H tone deletion in KosJ-Kuwanoura — 139
5.3	Conclusion — 140
6	Question and vocative prosody — 142
6.1	Question prosody — 142
6.1.1	Typology — 142

6.1.2	Basic pattern in KosJ — 146
6.2	Vocative prosody — 148
6.2.1	Background — 149
6.2.2	Vocative prosody in KosJ: One-peak system — 158
6.2.3	Vocative prosody in KosJ: Two-peak systems — 162
6.3	Summary — 166
7	Other aspects of sentence prosody — 167
7.1	Syllable-tone relations — 167
7.1.1	Tonal crowding and its resolution — 167
7.1.2	Constraint against trimoraic syllables — 178
7.1.3	Arguments for Ladd's (1996, 2008) claim — 181
7.2	Tonal neutralizations — 182
7.2.1	Tonal neutralization in lexical prosody — 182
7.2.2	Tonal neutralization in postlexical H tone deletion in non-final position — 186
7.2.3	Tonal neutralization in question prosody — 191
7.2.4	Tonal neutralization in vocative prosody — 194
7.3	Lexical vs. postlexical competitions — 198
7.3.1	H tone clash in short words — 198
7.3.2	Tonal crowding in vocatives — 204
8	Summary and prospect — 207
