Contents

The Hedgehog Signaling Pathway in Cancer	1
J. Vestergaard, Mads Bak, L.A. Larsen	
1 Introduction	1
2 The Hedgehog Signaling Pathway	1
2.1 Synthesis and Processing of Hh Protein	2
2.2 Movement of Hh Protein	2
2.3 Reception of Hh Signaling	4
2.4 Intracellular Signal Transduction	5
3 Hh Signaling in Tumor Formation and Growth	6
3.1 Defects in Hh Signaling Causes Nevoid Basal-Cell Carcinoma Syndrome.	6
3.2 Experiments with Animal Models Link Hh Signaling to Tumorigenesis	7
3.3 Hh Signaling in Sporadic Cancers.	7
3.3.1 A Subset of Sporadic Cancers Have Mutations in Genes Involved in Hh Signaling	8
3.3.2 Expression Analysis of Hh Signaling Genes Suggests Diverse Mechanisms of Involvement in Cancer	8
3.4 Molecular Mechanisms for Hh-Stimulated Tumor Growth.	11
3.4.1 SHH Stimulates Stem Cell-Like Progenitor Cell Proliferation	11
3.4.2 Do Tumors Arise from Transformation of Stem Cells?	11
3.4.3 Molecular Targets of Hh Signaling	12
4 Small-Molecule Hh Signaling Antagonists – a Therapeutic Opportunity?	15
4.1 Discovery of Small-Molecule Hh Antagonists	16
4.2 Inhibition of Tumor Growth by Hh Antagonists	16
5 Future Prospects.	17
