

Contents

I	Introduction	1
1	Motivation	3
2	Objectives	7
3	Thesis Structure	13
II	Theoretical frame	17
4	Problem posing from a subject-matter didactics perspective	21
4.1	Illustration with a geometric example	21
4.2	Conceptions of problem posing – Four mathematical miniatures	35
4.2.1	Problem posing as generating new problems	50
4.2.2	Problem posing as reformulating a given problem for problem solving	54
4.2.3	Problem posing as reformulating a given problem for investigation	57
4.2.4	Problem posing as constructing tasks for others	61
5	Problem posing and its connection to related constructs in mathematics education	67
5.1	Modelling	68

5.2	Proving	70
5.2.1	Proving through problem posing	72
5.2.2	Problem posing through proving	72
5.3	Problem Solving	73
5.3.1	Problem posing as a subset of problem solving	76
5.3.2	Problem solving as a subset of problem posing	78
5.3.3	Problem posing and problem solving as complementary, but different in nature	79
5.4	Creativity and Giftedness	81

III Journal articles 85

6	Rethinking problem-posing situations: A review	87
6.1	Introduction	88
6.2	Theoretical Background	91
6.2.1	What is problem posing?	92
6.2.2	What is posing?	93
6.2.3	What is a problem?	93
6.2.4	Openness of problems	96
6.2.5	Categorisations of problem-posing situations	97
6.2.6	Research questions	100
6.3	Design	101
6.3.1	Data sampling	101
6.3.2	Data analysis	104
6.4	Analysis 1: Is it posing?	105
6.4.1	Discussion of Analysis 1: Mathematical problem posing	108
6.5	Analysis 2: Is it free, semi-structured, or structured?	110
6.5.1	Discussion of Analysis 2: Unstructured situations	111
6.6	Analysis 3: Is it a routine or a non-routine problem?	114

6.6.1	Discussion of Analysis 3: Routine and non-routine initial problems	114
6.7	Conclusion	116
6.7.1	Implications for practice	119
6.7.2	Implications for research	119
7	Developing a framework for characterising problem-posing activities: A review	123
7.1	Introduction	124
7.2	What is problem posing?	128
7.2.1	Definition of problem posing	128
7.2.2	Non-posing activities	129
7.3	The proposed framework	132
7.3.1	Dimension 1: Generating and reformulating	132
7.3.2	Dimension 2: Routine and non-routine problems	134
7.3.3	Dimension 3: Metacognitive behaviour . . .	136
7.4	Procedure of the literature review	137
7.5	Qualitative application of the framework	142
7.5.1	Dimension 1: Generating and reformulating	143
7.5.2	Dimension 2: Routine and non-routine problems	144
7.5.3	Dimension 3: Metacognitive behaviour . . .	148
7.6	Quantitative application of the framework	151
7.7	Conclusion and discussion	153
8	The process of problem posing: Development of a descriptive process model of problem posing	159
8.1	Introduction	160
8.2	Theoretical Background	162
8.2.1	Problem Posing	162
8.2.2	Process of problem posing – State of research	164

8.2.3	Research questions	169
8.3	The study	169
8.3.1	Data collection	169
8.3.2	Data evaluation	171
8.4	Results	173
8.4.1	Category development of episode types in problem posing	176
8.4.2	Derivation of a descriptive phase model for problem posing	183
8.5	Discussion	185
9	Identifying metacognitive behavior in problem-posing processes. Development of a framework and a proof of concept	189
9.1	Introduction	190
9.2	Theoretical Background	192
9.2.1	Problem Posing	192
9.2.2	Metacognition	193
9.2.3	Research on Metacognition in Mathematics Education	197
9.2.4	Research on Metacognition in Problem Posing	198
9.3	Research objectives	200
9.4	Methods	201
9.4.1	Research design for data collection	201
9.4.2	Data analysis – Assessment of metacognitive behavior	203
9.5	Results	205
9.5.1	Development of a framework for identifying problem-posing-specific aspects of metacog- nitive behavior	205
9.5.2	Proof of concept: The cases of Tino & Ulrich and Valerie & Wenke	208

9.6	Discussion	218
9.7	Conclusion	220
IV	Discussion & Outlook	225
10	Summary	229
11	Potential for further research	233
V	Listings	237
	Bibliography	239
	List of Tables	269
	List of Figures	273
VI	Appendix	275
A	Online supplement of journal article 2	277
A.1	List of all 47 included articles included in the review	277
A.2	Categorisation of all 47 articles within the developed framework	284
B	Online supplement of journal article 3	287
