Dynamical Entropy in Operator Algebras

Contents

Part I General Theory

1	Classical Dynamical Systems	3
1.1	Measure Entropy	3
1.2	Topological Entropy	9
1.3	Entropy via Partitions of Unity	11
1.4	Notes	14
2	Relative Entropy	15
2.1	Relative Entropy for Matrix Algebras	15
2.2	Von Neumann Entropy	21
2.3	Relative Entropy for General C^* -algebras	26
2.4	Notes	30
3	Dynamical Entropy	33
3.1	Mutual Entropy	33
3.2	Entropy of Dynamical Systems	48
3.3	Type I Algebras	54
3.4	Notes	57
4	Maximality of Entropy and Commutativity	61
4.1	Maximal Entropy of Subalgebras	61
4.2	Independent Algebras	66
4.3	Entropic K-systems	69
4.4	Notes	74
5	Dynamical Abelian Models	77
5.1	Entropy via Stationary Couplings	77
5.2	Zero Entropy Systems	86
5.3	Notes	91

6	Topological Entropy	93
6.1	Rank of a Completely Positive Approximation	93
6.2	Topological Entropy	96
6.3	Notes	103
7	Dynamics on the State Space	107
7.1	Measure Entropy	107
7.2	Topological Entropy	110
7.3	Notes	119
8	Crossed Products	121
8.1	Crossed Products by Discrete Amenable Groups	121
8.2	Generalizations	125
8.3	Notes	130
9	Variational Principle	133
9.1	Pressure	133
9.2	The variational principle	138
9.3	KMS-states	144
9.4	Notes	151

Part II Special Topics

10	Relative Entropy and Subfactors	157
10.1	Relative Entropy	157
10.2	Index of Subfactors	164
10.3	Generators and Relative Entropy	167
10.4	The Canonical Shift	171
10.5	Shifts on Temperley-Lieb Algebras	180
10.6	Notes	183
11	Systems of Algebraic Origin	185
11.1	Twisted Group C^* -algebras	185
11.2	Estimates of Topological Entropy	187
11.3	K-systems	194
11.4	Zero Entropy Systems	201
11.5	Automorphisms of Noncommutative Tori	206
11.6	Notes	209
12	Binary Shifts	211
12.1	The C^* -algebra of a Bitstream	211
12.2	Entropy of Binary Shifts	217
12.3	Notes	224

13 Bogoliubov Automorphisms	227
13.1 Canonical Anticommutation Relations	227
13.2 Topological Entropy	229
13.3 Classical Bernoullian Subsystems	233
13.4 Dynamical Entropy	238
13.5 Notes	248
14 Free Products	251
14.1 Free Products of Algebras and Maps	251
14.2 Free Shifts	254
14.3 Free Product Automorphisms	257
14.4 Notes	263
A Completely Positive Maps	265
B Operator Inequalities	271
C Direct Integrals	275
References	279
List of Symbols	291
Index	295
