Phenomenology of Active Galactic Nuclei	
By <i>L. Woltjer</i> (With 13 Figures)	1
Introduction	1
Emission Line Spectra of AGN	7
Continua of AGN from Radio to Gamma-ray Frequencies	9
Surveys for AGN	12
Nearby AGN	12
Radio Surveys	14
IR Surveys	15
Optical Surveys	16
X-ray Surveys	20
Energetics and Time Scales	20
Quasar Absorption Lines	23
Metal Line Systems	25
The Ly α Forest	27
The Nature of the Ly α Clouds	30
BAL Quasars	31
Galaxies with Active Nuclei	32
Quasar Galaxies	32
Radio Quasars	32
Radio Quiet Quasars	34
Other Properties of Active Galaxies	35
Luminosity Functions	38
Unified Models	41
AGN as Cosmological Probes	45
The X-ray Background	48
Conclusion	49
References	50
 AGN Emission Lines	
By <i>H. Netzer</i> (With 40 Figures)	57
1. The AGN Family	57
1.1 Quasars and Seyfert 1 Galaxies	57
1.2 Seyfert 2 Galaxies	58
1.3 Low Ionization Nuclear Emission Line Regions (LINERs)	58
