|-----------------------------------------------------------------------|------------|
| <b>Abbreviations</b>                                                  | <b>III</b> |
| <b>Symbols</b>                                                        | <b>V</b>   |
| <b>1 Introduction</b>                                                 | <b>1</b>   |
| 1.1 Initial Situation and Motivation . . . . .                        | 4          |
| 1.2 Scientific Relevance and Contribution . . . . .                   | 8          |
| 1.3 Methodology and Structure of the Thesis . . . . .                 | 10         |
| <b>2 The Ship Crew Scheduling Problem with Rest Hours Constraints</b> | <b>13</b>  |
| 2.1 Ship Crew Organisation . . . . .                                  | 14         |
| 2.2 Workload on Container Ships . . . . .                             | 16         |
| 2.3 Work and Rest Hours Regulations . . . . .                         | 20         |
| <b>3 State of the Art and Fundamentals</b>                            | <b>25</b>  |
| 3.1 Scheduling and Crew Scheduling Problems . . . . .                 | 25         |
| 3.2 Integer Programming and Formulations . . . . .                    | 30         |
| 3.3 Solution Techniques . . . . .                                     | 33         |
| <b>4 Mathematical Formulation and Complexity</b>                      | <b>39</b>  |
| 4.1 Integer Programme and Formulation Challenges . . . . .            | 39         |
| 4.2 Design of Experiment and Numerical Results . . . . .              | 45         |
| 4.3 NP-completeness . . . . .                                         | 64         |
| <b>5 Performance Improvement Strategies and Real-World Use Cases</b>  | <b>67</b>  |
| 5.1 Formulation Adaptation and Algorithmic Setup . . . . .            | 67         |
| 5.2 SCSP-RHC Heuristic and Hybrid Methods . . . . .                   | 76         |
| 5.3 Real-World Use Cases . . . . .                                    | 85         |

|          |                                  |           |
|----------|----------------------------------|-----------|
| <b>6</b> | <b>Main Findings and Outlook</b> | <b>95</b> |
| 6.1      | Main Findings . . . . .          | 95        |
| 6.2      | Outlook . . . . .                | 97        |
