Preface — V

Moises Batista, Juan Manuel Vazquez-Martinez, Magdalena Ramírez-Peña,
David Piñero, Jorge Salguero

1 Environmental aspects related to nonconventional machining processes — 1

Ping Zou, Yingjian Tian, Wenjie Wang, Jilin Xu, Di Kang

2 Vibration assisted machining: turning, drilling, cutting, and laser polishing — 25

Fermin Bañon, Ruben Montaña, Magdalena Ramirez, Alejandro Sambruno

3 Abrasive waterjet machining of dissimilar materials stacked in a hybrid structure — 91

Aviral Misra, Uday S. Dixit

4 Magnetic abrasive finishing process — 119

M. A. Karim, M. P. Jahan

5 Electrical discharge machining of silicon: current progress and future trends — 139

Sudip Banerjee, Bikash Panja, Prasanta Sahoo

6 Parametric optimization of machining characteristics of titanium alloy in WEDM — 171

About the editor — 189

Index — 191
