

INTRODUCTION	5	MATERIALS	19	WALLS	77	ROOFS	195	STRUCTURE	281	ENVIRONMENT	349	APPLICATIONS	419	REFERENCES	495
Introduction to sixth edition	6	1 Steel	20	Trends in facade design	78	Trends in roof design	196	Material systems for structures	282	Environmental studies for envelopes	350	1 Working with industry	420	Glossary of terms	496
Governing aspects of design	7	Production	22									2 Triangular panels for twisted facades	422	Authorship	500
Information layout	8	Performance	24	Generic wall types	84	Metal roofs		Elements of structures	284	Analysis for design		3 Twisted panels with flat glass for curved facades	424	Photo credits	501
Design motivation	10	Applications	25			1 Metal standing seam	200			1 Solar radiation	354			Index	502
Materials and assembly	11	2 Aluminium	26	Metal		2 Profiled metal sheet	204	Braced frames		2 Daylight	358	4 Solar shading louvres	430		
Performance	13	Production	28	1 Sheet metal	86	3 Composite panels	208	1 Reinforced concrete	286	3 Thermal performance	360	5 Double-skin facades	434		
Realisation of architectural intent through integration of strategies	14	Performance	30	2 Profiled cladding	90	4 Rainscreens	212	2 Steel	290	4 Wind	362	6 Precast concrete panels for facades of complex geometry	436		
Relation to other design industries	15	3 Copper, zinc, lead	32	3 Composite panels	94	5 Metal louvres	216	3 Timber	294	5 Solar shading	364	7 Exoskeleton facades of complex geometry	440		
Application cases	16	Production	32	4 Rainscreens	98			Portal frames	298	6 Double skin facades	372	8 Diagrid structures	442		
The Modern Construction Series	17	Performance	34	5 Mesh screens	102	Glass roofs		Loadbearing boxes		7 Natural ventilation	378	9 Hybrid systems forming facades of complex geometry	444		
Qualifying comments	17	Applications	35	6 Louvre screens	106	1 Greenhouse glazing and capped systems	220	1 Reinforced concrete	302	8 Thermal mass	380	10 Opaque cladding interface with full-height glazing	448		
		4 Stone	36	Glass systems	110	2 Silicone-sealed glazing and rooflights	224	2 Brick	306			11 Complex curved glazed roofs	450		
		Production	36	1 Stick systems	114	3 Bolt fixed glazing	228	3 Glass	310	Low-energy material systems		12 Large-scale glazed facades	454		
		Performance	36	2 Unitised glazing	118	4 Bonded glass rooflights	232			1 Embodied energy	382	13 Panelisation of complex building surface geometry	456		
		Applications	39	3 Clamped glazing	122			Trusses		2 Green walls	386	14 Opaque rainscreen cladding	460		
		5 Glass	40	4 Bolt fixed glazing	126	Concrete roofs		Arches and shells	318			15 Full-height glazing with GRP-clad structural frame	462		
		Production	42	5 Glass blocks and channels	130	1 Concealed membrane	236	Space grids	322	Active design		16 GRC cladding interfaces	464		
		Performance	44	6 Steel windows	134	2 Exposed membrane	240			1 Liquid based heating/cooling systems	388	17 Full-height entrance glazing	466		
		Applications	51	7 Aluminium windows	138	3 Planted roof	244	Floor structures		2 Mechanical heating/cooling systems	390	18 GRP louvres on stick glazing system	468		
		7 Fibre reinforced concrete	52	8 Timber windows	142			1 Cast in situ/cast in place concrete	326	3 Electrical lighting	396	19 GRC cladding	474		
		Production	53			Timber roofs		2 Precast concrete		4 Raised floors	398	20 Windows in GRC cladding	476		
		Performance	54			1 Flat roof: mastic asphalt coverings	248	3 Steel and steel mesh	330	5 Internal ceilings	400	21 Windows and unitised glazing with GRC cladding	480		
		Applications	55			2 Flat roof: bitumen-based sheet	252	4 Timber	332	Support services		22 Unitised glazing with GRC cladding	482		
		8 Ceramics	56	Masonry		3 Pitched roof: tiles	256	5 Glass	336	1 Sanitation and drainage	402	23 Complex glazed roofs with supporting steel structure	484		
		Production	56	1 Loadbearing walls	158			Stairs		1 Maintenance and cleaning	404	24 Glazed roofs with complex geometry	488		
		Performance	58	2 Cavity walls	162	Fibre reinforced polymer roofs		1 Concrete	340	2 Lifts	410	25 Louvres and stick glazing	490		
		Applications	59	Brick	166	1 FRP rooflights	260	2 Steel	342						
		9 Timber	60	Stone and block	166	2 FRP panels and shells	264	3 Timber	344	Performance testing					
		Production	62	3 Cladding	170			4 Glass	346	1 Facade material systems	412				
		Performance	64	4 Rainscreens	174					2 Roof material systems	416				
		Applications	65												
		10 Polymers	66	Fibre reinforced polymers											
		Production	70	1 FRP cladding	178										
		Performance	72	2 FRP rainscreens	182										
		11 Material testing	74	Timber											
		Testing of building materials	74	1 Timber frame	186										
				2 Cladding panels	190
