

Contents

Preface and Acknowledgements	5
Chapter 1 Introduction	9
1.1 Ocular Hemodynamics	9
1.2 Ocular Hydrodynamics	17
Chapter 2 Anatomical Basis of Blood Supply of the Orbit, the Eye and the Anterior Part of the Optic Nerve	31
Chapter 3 Physiological Basis of Blood Supply to the Eye and the Anterior Part of the Optic Nerve	43
Chapter 4 Ocular Hemodynamics and Pulsatile Flow	55
Chapter 5 Ocular Blood Pressures and Ocular Perfusion Pressures	59
Chapter 6 Regulation of Ocular Circulation	103
Chapter 7 Ocular Pulse and Ocular Pressure-pulse and Volume-pulse Curves	123
Chapter 8 The Ocular Pressure Blood Flow Analyzer (OPFA). Manual and Instructions for Examinations	131
Chapter 9 Reference Data as a Basis for Evaluating Measurements of the Ocular Pressure Blood Flow Analyzer (OPFA)	149
Chapter 10 Ocular Hydrodynamics as Part of Ocular Microcirculation	177
Chapter 11 Investigations of Intraocular Pressure (IOP) During and After Artificial Increase	191
Chapter 12 Oculopression Tonometry (OPT) to Determine Outflow Facility and the Formation of Aqueous Humor	215
Index	225
