Optical feedback cavity-enhanced absorption spectroscopy (OF-CEAS) in a ring cavity	1
D.J. Hamilton, M.G.D. Nix, S.G. Baran, G. Hancock, A.J. Orr-Ewing	
External-cavity quantum cascade lasers with fast wavelength scanning	11
T. Tsai, G. Wysocki	
Time-resolved spectral characteristics of external-cavity quantum cascade lasers and their application to stand-off detection of explosives.....	21
B. Hinkov, F. Fuchs, Q.K. Yang, J.M. Kaster, W. Bronner, R. Aidam, K. Köhler, J. Wagner	
5-µm vertical external-cavity surface-emitting laser (VECSEL) for spectroscopic applications	29
M. Rahim, A. Khir, F. Felder, M. Fill, H. Zogg, M.W. Sigrist	
Pulsed quantum-cascade-laser spectroscopy with intermediate-size pulses: application to NH₃ in the 10 µm region.....	33
B. Grouiez, V. Zeninari, L. Joly, B. Parvite	
Mid infrared interband cascade lasers for sensing applications	43
L. Nähle, P. Fuchs, M. Fischer, J. Koeth, A. Bauer, M. Dallner, F. Langer, S. Höfling, A. Forchel	
Performance of a 12.49 meter folded path copper Herriott cell designed for temperatures between 296 and 20 K.....	47
M. Guinet, A.W. Mantz, D. Mondelain	
Miniaturized resonant photoacoustic cell of inclined geometry for trace-gas detection	51
A.V. Gorelik, A.L. Ulasevich, F.N. Nikonovich, M.P. Zakharich, V.A. Firago, N.S. Kazak, V.S. Starovoitov	
Gas cells for tunable diode laser absorption spectroscopy employing optical diffusers. Part 1: single and dual pass cells.....	59
J. Hodgkinson, D. Masiyano, R.P. Tatam	
Gas cells for tunable diode laser absorption spectroscopy employing optical diffusers. Part 2: Integrating spheres	71
D. Masiyano, J. Hodgkinson, R.P. Tatam	
Mid-infrared quantum cascade detectors for applications in spectroscopy and pyrometry.....	81
D. Hofstetter, F.R. Giorgetta, E. Baumann, Q. Yang, C. Manz, K. Köhler	
Spectral and modulation properties of a largely tunable MEMS-VCSEL in view of gas phase spectroscopy applications	89
S. Schilt, K. Zogal, B. Kögel, P. Meissner, M. Maute, R. Protasio, M.-C. Amann	
Tunable diode laser spectroscopy with optimum wavelength scanning.....	99
J. Chen, A. Hangauer, R. Strzoda, M.-C. Amann	

Laser-based measurements of line strength, self- and pressure-broadening coefficients of the $H^{35}Cl$ R(3) absorption line in the first overtone region for pressures up to 1 MPa	109
P. Ortwein, W. Woiwode, S. Wagner, M. Gisi, V. Ebert	
Impact of water vapor on 1.51 μm ammonia absorption features used in trace gas sensing applications	117
S. Schilt	
Measurement of the isotope shift of the $6^3P_1 \leftrightarrow 5^3D_1$ transition of ytterbium by using a diode oscillator fiber amplified laser	129
L. Lee, H. Park, K.-H. Ko, D.-Y. Jeong	
Simulation-based comparison of noise effects in wavelength modulation spectroscopy and direct absorption TDLAS.....	135
B. Lins, P. Zinn, R. Engelbrecht, B. Schmauss	
Temperature and current coefficients of lasing wavelength in tunable diode laser spectroscopy.....	145
M. Fukuda, T. Mishima, N. Nakayama, T. Masuda	
Quantitative gas measurements using a versatile OPO-based cavity ringdown spectrometer and the comparison with spectroscopic databases	151
S. Persijn, F. Harren, A. van derVeen	
Results of TDLS application for ammonia monitoring in a process of high-purity arsine and phosphine production.....	159
A.P. Kotkov, V.A. Ivanov, N.D. Grishnova, A.V. Shirayev, A.G. Berezin, A.I. Nadezhdinskii, Y.Y. Ponurovskii, I.P. Popov, Y.P. Shapovalov, D.B. Stavrovskii, I.E. Vyazov	
Measurements of the temperature and water vapor concentration in a hot zone by tunable diode laser absorption spectrometry.....	165
M.A. Bolshov, Y.A. Kuritsyn, V.V. Liger, V.R. Mironenko, S.B. Leonov, D.A. Yarantsev	
Interest of absorption spectroscopy for the control of industrial processes. Application to H_2 massive production	177
L. Croizé, D. Doizi, B. Larousse, A. Pailloux, D. Reaux, C. Gallou, V. Dauvois, J.L. Roujou, Y. Zanella, P. Carles	
Laser spectroscopic oxygen sensor using diffuse reflector based optical cell and advanced signal processing.....	185
J. Chen, A. Hangauer, R. Strzoda, M.-C. Amann	
Laser applications in thin-film photovoltaics	195
R. Bartlome, B. Strahm, Y. Siquin, A. Feltrin, C. Ballif	
Laser-based sensor for a coolant leak detection in a nuclear reactor.....	205
T.-S. Kim, H. Park, K. Ko, G. Lim, Y.-H. Cha, J. Han, D.-Y. Jeong
