1	Clinical Aspects of Paediatric Urology	1
	<i>F. Seseke</i>	
1.1	Embryology	1
1.1.1	Development of the Kidney	1
1.1.2	Development of the Ureter	3
1.1.3	Development of the Bladder	3
1.1.4	Development of the Sinus Urogenitalis	3
1.1.5	Development of the Genital Ducts	4
1.1.6	Development of the Male Genitalia	4
1.1.7	Development of the Female Genitalia	5
1.2	Anomalies of the Upper Urinary Tract	6
1.2.1	Renal Dysgenesis	6
1.2.2	Cystic Disease of the Kidney	8
1.2.3	Renal Anomalies of Ascent, Fusion and Rotation	10
1.2.4	Anomalies of the Collecting System and Ureter	14
1.3	Anomalies of the Lower Urinary Tract	20
1.3.1	Bladder Exstrophy	20
1.3.2	Other Congenital Anomalies of the Bladder	22
1.3.3	Anomalies of the Urachus	23
1.3.4	Neurogenic Disorder of the Lower Urinary Tract	23
1.3.5	Posterior Urethral Valves	25
1.3.6	Other Congenital Anomalies of the Urethra	27
1.4	Prune-belly Syndrome	28
1.4.1	Aetiology and Pathogenesis	28
1.4.2	Clinical Presentation and Evaluation	28
1.4.3	Therapy and Prognosis	29
1.5	Urinary Tract Infections	30
1.5.1	Aetiology and Pathogenesis	30
1.5.2	Clinical Presentation	31
1.5.3	Clinical Evaluation	32
1.5.4	Therapy	33
1.5.5	Genitourinary Tract Infection	33
1.6	Urolithiasis	34
1.6.1	General Pathophysiology of Stone Formation	34
1.6.2	Specific Pathophysiology of Stone Formation	34
1.6.3	Clinical Presentation and Evaluation	36
1.6.4	Therapy	37
1.7	Vesico-ureteral Reflux	40
1.7.1	Aetiology and Pathogenesis	40
1.7.2	Clinical Presentation	40
1.7.3	Clinical Evaluation	41

1.7.4	Grading	42
1.7.5	Therapy	42
1.8	Megaureter	48
1.8.1	Definition	48
1.8.2	Pathophysiology	48
1.8.3	Clinical Presentation and Evaluation	49
1.8.4	Therapy	50
1.8.5	Operative Techniques	51
1.9	Obstructive Uropathy	51
1.9.1	Pathophysiology	51
1.9.2	Clinical Presentation	52
1.9.3	Clinical Evaluation	52
1.9.4	Clinical Management	53
1.9.5	Ureteropelvic Junction Obstruction	54
1.9.6	Ureterovesical Junction Obstruction	56
1.10	Paediatric Oncology	57
1.10.1	Wilms' Tumour	57
1.10.2	Neuroblastoma	59
1.10.3	Testicular Tumours in Children	61
1.10.4	Rhabdomyosarcoma of the Pelvis	63

4	Case Reports	123
	<i>H. Zappel and J. Meller</i>	
	Introduction	123
Case 1:	Bilateral Renal Hypoplasia	124
Case 2:	Unilateral Renal Agenesis Combined with VUR on the Contralateral Side	126
Case 3:	Pancake Kidney	129
Case 4:	Unilateral Renal Dysplasia with Contralateral Subpelvic Obstruction	130
Case 5:	Horseshoe Kidney and Symptomatic Urinary Tract Infections	134

Case 6:	Horseshoe Kidney with a Megaureter on the Right Side . . .	136
Case 7:	Upper Urinary Tract Infection Combined with Reversible Renal Lesions Seen on ^{99m} Tc-DMSA Scan and Ectopic Position of One Kidney	140
Case 8:	Renal Damage Following Multifocal Pyelonephritis	143
Case 9:	Subpelvic Obstruction During Early Childhood	147
Case 10:	Recurrent Renal Colics Caused by an Extrinsic Subpelvic Stenosis	152
Case 11:	Dilatation of the Renal Pelvis Without Obstruction	156
Case 12:	Prenatally Diagnosed Unilateral Dilation of the Renal Pelvis	159
Case 13:	Intermittent Colics with Macrohaematuria Due to Extrinsic Subpelvic Stenosis	163
Case 14:	Prune Belly Syndrome (Unilateral Manifestation)	167
Case 15:	Obstructive Megaureter	171
Case 16:	Congenital Bilateral Megaureter	176
Case 17:	Incontinence Caused by an Ectopic Ureter	181
Case 18:	Bilateral Single Ectopic Ureter	183
Case 19:	Duplex System with Ectopic and Obstructive Megaureter . .	187
Case 20:	Renal Duplication with Dysplastic Upper Pole and Ureterocele	190
Case 21:	Bilateral Renal Duplication and VUR	194
Case 22:	Duplex-System with Dysplastic-Lower Pole and Reflux Nephropathy	196
Case 23:	Dysplastic Kidney with Severe VUR	200
Case 24:	Reflux Nephropathy After Two Episodes of Pyelonephritis Caused by Secondary Reflux and a Meatal Stenosis	202
Case 25:	High-grade Bilateral VUR and Reflux Nephropathy	206
Case 26:	Functional Disturbance of Micturition with Secondary Bilateral VUR	209
Case 27:	Left-sided Dysplastic Multicystic Kidney and Testicular Dysplasia Combined with Contralateral High-grade VUR	212
Case 28:	Polycystic Kidney (Autosomal Dominant Type)	214
Case 29:	Tuberous Sclerosis – Cystic Renal Disease	216
Case 30:	Urethral Valve – Severe Secondary Reflux	217
Case 31:	Terminal Renal Insufficiency Due to Obstructive Uropathy Caused by a Urethral Valve: Renal Transplantation at 2½ Years of Age	221
Case 32:	Bladder Exstrophy and Uretero-enterostomy (Mainz Pouch II)	223
Case 33:	Neonatal Renal Vein Thrombosis	228
Case 34:	Nephrolithiasis, Cystinuria	231
Case 35:	Hereditary Nephrolithiasis Due to Hyperresorptive Hypercalciuria	235
Case 36:	Renal Bruise on the Right Side	237
Case 37:	Wilms' Tumour – Aniridia Syndrome with Deletion of 11p12	239
Case 38:	Neuroblastoma	241
