Videos	xii
Foreword	xiv
Preface	xv
Acknowledgments	xvi
Contributors	xvii
1. Mohs Micrographic Surgery.....	1
1.1 Before the First Stage	1
<i>Nicholas Golda and George Hruza</i>	
1.1.1 Tumor Selection	1
1.1.2 Documentation of Site	2
1.1.3 Time-Out	3
1.2 Procedures before the First Stage	3
<i>Nicholas Golda and George Hruza</i>	
1.2.1 Curettage	3
1.2.2 Sharp Debulking.....	5
1.3 The First Stage	5
<i>Nicholas Golda and George Hruza</i>	
1.3.1 Essentials of the First Stage	5
1.3.2 Incomplete Excision and Recurrence	9
1.4 Tissue Processing	9
<i>Nicholas Golda and George Hruza</i>	
1.4.1 Tissue Transfer	9
1.4.2 Relaxing Incisions and Dividing.....	9
1.4.3 Tissue Inking	11
1.5 Histologic Interpretation/Mapping ..	12
<i>Nicholas Golda and George Hruza</i>	
1.5.1 Initial Slide Quality Review	12
1.5.2 Histologic Interpretation	13
1.5.3 Tissue Mapping.....	14
1.6 Subsequent Layers	16
<i>Nicholas Golda and George Hruza</i>	
1.6.1 Subsequent Layers When Malignancy is Present Only in the Deep Tissue.....	16
1.7 Nonstandard Situations.....	17
<i>Nicholas Golda and George Hruza</i>	
1.8 Mohs Layers in Special Sites	17
<i>Thomas Hocker</i>	
1.8.1 Eyelid.....	18
1.8.2 Lip.....	21
1.8.3 Ear	22
1.8.4 Nose.....	23
1.8.5 Periosteum/Bone	24
1.8.6 Nail.....	25
1.8.7 Anogenital Region	26
2. Facial Subunit Reconstructive Principles and General Considerations.....	28
<i>Christopher J. Miller, Joseph F. Sobanko, Nicole Howe, Thuzar Shin, Jeremy R. Etzkorn, and H. William Higgins II</i>	
2.1 Design Principles of Facial Reconstruction.....	28
2.1.1 Overview	28
2.1.2 Free Margins	28
2.1.3 Contour	29
2.1.4 Cosmetic Subunit Junction Lines	29
2.1.5 Relaxed Skin Tension Lines	29
2.1.6 Color and Texture.....	31
2.2 Principles of Tissue Biomechanics	32
2.2.1 Overview	32
2.2.2 Preferred Vectors to Move Facial Tissue..	32

2.2.3	How Different Reconstructions Affect Location of Tension Relative to the Primary Defect	34	2.4.2	Define What Is Missing.....	36
2.2.4	Tissue Planes for Undermining and Elevating Flaps	34	2.4.3	Prioritize Principles for Reconstruction Design	36
2.3	Key Principles of Anatomy	35	2.4.4	Choose among Reconstruction Options..	36
2.3.1	Overview	35	2.5	Reconstruction Options for Facial Reconstruction	36
2.3.2	Blood Supply to the Face	35	2.5.1	Overview	36
2.3.3	Superficial Musculoaponeurotic System .	36	2.5.2	Second Intention Healing.....	36
2.4	Systematic Approach to Assessing Facial Wounds and Choosing Reconstruction	36	2.5.3	Linear Closure	37
2.4.1	Overview	36	2.5.4	Skin Grafts	37
			2.5.5	Sliding Flaps.....	37
			2.6	Conclusion	40
3.	Nose	42			
	<i>Evan Stiegel and John Zitelli</i>				
3.1	Introduction	42	3.4.6	Spear Flap.....	58
3.2	Anatomy	43	3.4.7	Technique.....	58
3.3	Nasal Tip	44	3.5	Soft Triangle/Columella	59
3.3.1	Second Intention Healing.....	44	3.5.1	Turnover Flap.....	59
3.3.2	Primary Closure	45	3.5.2	Nasal Tip Rotation Flap.....	60
3.3.3	Bilobed Flap.....	46	3.6	Nasal Dorsum	60
3.3.4	Dorsal Nasal (Rieger's) Flap.....	48	3.7	Nasal Root/Lower Glabella	62
3.3.5	Forehead Flap	49	3.8	Nasal Sidewall	62
3.3.6	Prelaminated and Prefolded Forehead Flap.....	52	3.8.1	Rhombic Transposition Flap	62
3.3.7	Conchal Bowl Full-Thickness Skin Graft..	53	3.8.2	Superior-Based Bilobed Flap.....	62
3.4	Nasal Ala	54	3.8.3	Lateral-Based Rotation Flap/Crescentic Advancement Flap/Cheek-Based Burow's Advancement Flap	63
3.4.1	Second Intention	54	3.8.4	V-Y Flap.....	63
3.4.2	Grafts	54	3.8.5	Single-Stage Nasolabial Flap	64
3.4.3	Medial-Based Bilobed Flap.....	55	3.9	Complications and Revisions	65
3.4.4	Spiral Flap.....	56			
3.4.5	Cheek-to-Nose Interpolation Flap	56			
4.	Forehead and Temple Reconstruction	66			
	<i>Joseph F. Sobanko, Ashwin Agarwal, and Christopher J. Miller</i>				
4.1	Forehead and Temple Anatomy	66	4.2	Preservation of Sensory and Motor Function	67
4.1.1	Boundaries of the Forehead and Temple Subunits	66	4.2.1	Sensory Function	67
4.1.2	Muscles of the Forehead and Temple	66	4.2.2	Motor Function.....	68
4.1.3	Blood Supply to the Forehead and Temple.....	67			

4.3	Achieving Reproducibly Excellent Cosmetic Results	69	4.5.2	Linear Closure	70
4.4	Evaluating Wounds on the Forehead and Temple	69	4.5.3	Local Flaps	72
4.5	Reconstruction Options for the Forehead and Temple	69	4.5.4	Sliding Flaps	73
4.5.1	Second Intention	70	4.5.5	Transposition Flaps	74
			4.5.6	Skin Grafts	77
5.	Scalp	83	4.6	Complications	77
	<i>David Zloty, Irèn Kossintseva, and Victoria Godinez-Puig</i>		4.7	Conclusion	81
5.1	Relevant Anatomy	84			
5.1.1	Skin	84	5.2	Reconstructive Options	88
5.1.2	Subcutis	84	5.2.1	Algorithm for Scalp Reconstruction	88
5.1.3	Galea Aponeurotica	86	5.2.2	Second Intention Healing	88
5.1.4	Subgaleal Loose Connective Tissue	87	5.2.3	Skin Grafts	91
5.1.5	Periosteum	87	5.2.4	Local Flaps	93
6.	Cheek	102	5.3	Complications	99
	<i>Jonathan Cappel</i>				
6.1	Introduction	102	6.4	Reconstructive Options	105
6.2	Relevant Anatomy	102	6.4.1	Primary Closures	105
6.3	Aesthetic Subunits and Defects	103	6.4.2	Flaps	107
			6.4.3	Second Intention Healing	110
			6.4.4	Full-Thickness Skin Graft	110
7.	Auricular Reconstruction	112	6.5	Complications and Revisions	111
	<i>David G. Brodland and Molly Powers</i>				
7.1	Introduction	112	7.3.3	Lobule	123
7.2	Relevant Anatomy	112	7.3.4	Antihelix	127
7.3	Reconstructive Options	113	7.3.5	Concha	130
7.3.1	Superior Helix	113	7.3.6	Tragus	132
7.3.2	Mid helix	120	7.3.7	Remainder of the Posterior Ear	133
8.	Lip (Perioral) Reconstruction	135	7.4	Complications and Revisions	133
	<i>Nicola A. Quatrano and Thomas E. Rohrer</i>				
8.1	Introduction	135	8.2	Cosmetic Subunits and Relevant Anatomy	135

8.3	Reconstructive Algorithm.....	137	8.3.3	Philtrum	146
8.3.1	Vermilion	138	8.3.4	Cutaneous Lower Lip.....	152
8.3.2	Cutaneous Lateral Upper Lip.....	139	8.4	Complications and Revisions.....	155
9.	Chin Reconstruction	157			
	<i>Christopher B. Harmon and Randall Proctor</i>				
9.1	Relevant Anatomy	157	9.3.4	Bilateral Advancement (O-T flap)	160
9.2	Aesthetic Subunits and Defects	158	9.3.5	V-Y Advancement Flap	161
9.3	Reconstructive Options	159	9.3.6	Rotation flaps	162
9.3.1	Algorithm	159	9.3.7	Transposition flaps.....	162
9.3.2	Healing by secondary intention.....	159	9.3.8	Full-Thickness Skin Grafts	162
9.3.3	Primary closure.....	159	9.4	Complications and Revisions.....	163
10.	Reconstruction of the Eyelids and Eyebrows	164			
	<i>Gabriela M. Espinoza and Aleksandar L. Kronic</i>				
10.1	Introduction	164	10.7	Grafts in Periocular Reconstruction	180
10.2	Surgical Anatomy of the Eyelids and Eyebrows	165	10.8	Repair of Superficial Nonmarginal Eyelid Defects	182
10.2.1	Superficial Topography of the Lids and Eyebrows	165	10.9	Reconstruction of the Full-Thickness Eyelid Defects	185
10.2.2	Orbicularis Oculi Muscle (OOM).....	167	10.9.1	Primary Closure of the Full-Thickness Defects of the Eyelids.....	185
10.2.3	Orbital Septum (OS) and Postseptal Fat Compartments	168	10.9.2	Semicircular Flap (Tenzel).....	189
10.2.4	Tarsoligamentous Sling.....	170	10.9.3	Tarsoconjunctival Flap for Lower Eyelid Reconstruction (Hughes Flap).....	189
10.2.5	Eyelid Retractors.....	171	10.9.4	Tarsal Transposition Flap for Lateral Upper Eyelid Reconstruction	192
10.2.6	Conjunctiva	171	10.9.5	Cutler-Beard Flap for Complete Upper Eyelid Reconstruction	194
10.2.7	Lacrimal System	171	10.10	Lower Lid Tightening Procedures ..	195
10.2.8	Neurovascular and Lymphatic System of the Lids.....	172	10.11	Wound Dressing and Postoperative Care in Periocular Surgery Patients	196
10.2.9	Orbit.....	175	10.12	Lacrimal Canalicular System Assessment and Reconstruction	196
10.2.10	Eyebrow Anatomy	175	10.13	Complications of Eyelid Reconstructions.....	198
10.3	Principles and Aims of Periocular Reconstruction.....	176			
10.4	Perioperative Surgical Tips, Instrumentations, and Sutures in Periocular Reconstruction	177			
10.5	Surgical Assessment of the Periocular Defect and Reconstruction Guidelines.....	178			
10.6	Secondary Intention Healing	179			

10.14 Aims and Principles of Eyebrow Reconstruction.....	198	10.14.4 Transposition Flaps	201
10.14.1 Primary Closure of Brow Defects	198	10.14.5 Pedicle Flaps	201
10.14.2 Advancement Flaps	199	10.14.6 Free Hair-Bearing Grafts (Composite Grafts—Skin and Hair).....	202
10.14.3 Island-Pedicle Flaps	199	10.15 Conclusion	202
11. Combination Reconstruction.....	206		
<i>Stanislav N. Tolkachjov</i>			
11.1 Introduction	207	11.4.1 Large Nasal Defects	215
		11.4.2 Lip.....	215
11.2 Combination of Primary and Graft Reconstruction.....	207	11.5 Reconstruction of Multiple Defects	215
11.2.1 Arm/Hand.....	208	11.5.1 Multiple Defects Repaired as One	215
11.2.2 Temple.....	208	11.5.2 “West by East-West”	215
11.2.3 Cheek.....	209	11.5.3 O-T Advancement Flap, Scalp/Forehead Rotation Flap, and Paramedian Forehead Flap	221
11.3 Combination of Flap and Graft Reconstruction.....	209	11.5.4 “Combo-Z” Flap.....	221
11.3.1 Lateral Infraocular Cheek.....	209	11.5.5 Multiple Defects Repaired with Burow’s Grafts.....	221
11.3.2 Periauricular Cheek/Ear	209	11.5.6 The “Kitchen Sink”: When Combination Reconstruction and Granulation Gets Us Out of a Jam	225
11.3.3 Upper Cutaneous Lip/Philtrum/Alar Sill ...	209	11.6 Summary	225
11.3.4 Medial Cheek/Nasal Sidewall	209		
11.3.5 Forehead/Temple	210		
11.3.6 Large Nasal Defects	211		
11.4 Combination of Flaps for Reconstruction of Single and Multiple Defects	215		
12. Perioperative Management and Wound Care	227		
<i>Jason R. Castillo, Jennifer L. Hanson, and Randall K. Roenigk</i>			
12.1 Preoperative Considerations.....	227	12.2.4 Postdermabrasion Care.....	238
12.1.1 Antibiotic Prophylaxis.....	227	12.2.5 Postprimary Closure on the Lower Extremity	238
12.1.2 Anticoagulants	229	12.2.6 Postflap Care	238
12.1.3 Conscious Sedation/Analgesia.....	232	12.3 Hematoma Management	239
12.1.4 Implantable Devices	233	12.4 Infection Management.....	241
12.2 Postoperative Care.....	235	12.4.1 Infection	241
12.2.1 Granulation/Second-Intention Healing	236	12.4.2 Antimicrobial Selection	242
12.2.2 Porcine Xenografts and Biologic Dressings	236	12.5 Pain Management	242
12.2.3 Bolster Sutures	237		
Index	247
