Contents

Preface —— V

About the Editors —— IX

List of Contributors —— XI

Suresh Kumar B., Viswanadha Raju S., Uma Maheswari V.
1 OpenCV libraries for computer vision —— 1

Mehul S. Raval, G. P. Obi Reddy, Sanjay Chaudhary, J. Adinarayana
2 Data science, computer vision and machine learning for agriculture and natural resource management: an overview —— 23

Umamaheswari P., Vaishnavi D.
3 Image caption generating system using convolutional neural networks and long short-term memory networks —— 55

Indira Linginani, Akkalakshmi Muddana
4 Computer vision for healthcare applications —— 73

Gagan Dubey
5 Mental disorder prediction using facial expression based on machine learning techniques —— 97

G. Malini Devi
6 Neonatal monitoring system using IoT and object detection —— 109

Kiran P. Kamble, Vijay R Ghorpade, Sonali Patil, Pratibha Garje, Pooja D. Mundada
7 Video surveillance fire detection and quick alarm systems —— 121

Vaibhav Tasgaonkar, Ujwala Kshirsagar, Soham Hudnurkar, Pravin Sridhar
8 Face mask detection and crowd size estimation using IoT platform —— 135

J. Srinivas, Rajesham Gajula
9 Generative adversary networks novel trends in image processing —— 147

Bibliografische Informationen
https://d-nb.info/1254672982

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

Rutuja D. Bhandari, Shraddha Phansalkar
10 Computer vision-based approach for alphabetic recognition and Indian Sign Language recognition system — 173

Megharani Patil, Yash Gupta, Vatsal Kadakia, Harsh Doshi
11 Automated healthcare system using gamification and AI-based chatbot — 199

Kiran L. N. Eranki
12 Prediction of MRI tumor condition through image segmentation using deep neural network approach — 215

Abdulnasser Alwaheed, Md Akmol Hussain, Akbar Sheikh-Akbari
13 Color constancy adjustment techniques — 243

Henry Ndu, Akbar Sheikh-Akbari, Iosif Mporas
14 Hyperspectral imaging and its applications for vein detection: a review — 277

Sadu Chiranjeevi, Pradip K. Das
15 Detection of Augmented Facial Landmarks-based Face Swapping — 307

Pavan Kumar Asundi, Deepa Radhakrishna, Kavitha Veeraswamy
16 Factors affecting the accuracy of a laser scanner — 327

Index — 355
