Preface — VII

1 Second-order finite difference equations with multi-point boundary conditions — 1
1.1 A second-order difference equation with a linear term and a sign-changing nonlinearity — **1**
1.1.1 Preliminary results — **1**
1.1.2 Existence of positive solutions — **13**
1.1.3 An example — **19**
1.2 A second-order difference equation with a linear term, a sign-changing nonlinearity, and a positive parameter — **21**
1.2.1 Existence of positive solutions — **22**
1.2.2 Examples — **28**

2 Systems of second-order finite difference equations with uncoupled multi-point boundary conditions — 30
2.1 Nonnegative nonlinearities — **30**
2.1.1 Auxiliary results — **32**
2.1.2 Existence and multiplicity of positive solutions — **35**
2.2 Sign-changing nonlinearities and positive parameters — **47**
2.2.1 Main result — **48**
2.2.2 An example — **52**

3 Systems of second-order finite difference equations with nonnegative nonlinearities, coupled multi-point boundary conditions, and positive parameters — 54
3.1 Positive parameters in the system of difference equations — **54**
3.1.1 Preliminary results — **54**
3.1.2 Existence of positive solutions — **63**
3.1.3 Nonexistence of positive solutions — **73**
3.1.4 Examples — **78**
3.2 Positive parameters in the boundary conditions — **80**
3.2.1 Main results — **80**
3.2.2 An example — **89**

4 Systems of second-order finite difference equations with nonnegative nonlinearities, coupled multi-point boundary conditions, without parameters — 91
4.1 Some particular nonlinearities — **91**
4.1.1 Main results — **92**

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

4.1.2 An example — **100**
4.2 General nonlinearities — **101**
4.2.1 Auxiliary results — **101**
4.2.2 Existence of positive solutions — **106**

5 Systems of second-order finite difference equations with sign-changing nonlinearities and coupled multi-point boundary conditions — 118
5.1 Positive parameters in the system of difference equations — **118**
5.1.1 Existence of positive solutions — **118**
5.1.2 Examples — **138**

6 Nonlinear fractional difference equations with nonlocal boundary conditions — 141
6.1 Nonlinear νth-order Atıcı–Eloe fractional difference equations with left focal boundary conditions — **141**
6.1.1 Some preliminaries and the Green function — **142**
6.1.2 Existence results — **144**
6.2 Nonlinear νth-order Atıcı–Eloe fractional difference equations with Dirichlet boundary conditions — **147**
6.2.1 Preliminary results — **147**
6.2.2 Existence results — **148**

Bibliography — 151

Index — 155
