

Table of Contents

1. Introduction and Context.....	1
1.1. Motivation.....	1
1.2. Objective and Scope of the Work	1
2. Characterization of an isostructural MOF Series of Imidazolate Frameworks Potsdam by means of Sorption Experiments with Water Vapor.....	3
2.1. Introduction.....	3
2.2. Methods and Materials.....	5
2.2.1. X-ray Diffraction Patterns	5
2.2.2. Particle Size Distributions	5
2.2.3. Nitrogen and Carbon Dioxide Isotherms.....	5
2.2.4. Water Isotherms.....	6
2.2.5. Experimental Setup	6
2.2.6. Theory and Model	6
2.2.7. Material Synthesis and Characteristics.....	8
2.3. Results and Discussion	11
2.4. Conclusions.....	20
2.5. Supplementary Material	21
3. Modelling Adsorption based on an isorecticular MOF-Series of IFPs - Part I: Collection of physical Properties and single Component Equilibria.....	25
3.1. Introduction.....	25
3.2. Materials and Methods.....	26
3.2.1. Imidazolate Frameworks Potsdam	26
3.2.2. SEM Images	27
3.2.3. Particle Size Distributions	27
3.2.4. Differential Scanning Calorimetry	28
3.2.5. Volumetric Isotherm Measurement with N ₂ and CO ₂	28
3.2.6. Helium Pycnometry.....	29
3.2.7. Gravimetric Isotherm Measurement with CO ₂ and CH ₄	29
3.2.7.1. Experimental Setup	29
3.2.7.2. Data Processing	30
3.2.7.3. Isotherm Models	31
3.3. Results and Discussion	34
3.4. Conclusion	47
3.5. Supplementary Material	48

4. Modelling Adsorption based on an isorecticular MOF-Series of IFPs - Part II: dynamic Adsorption in fixed Beds	66
4.1. Introduction	66
4.2. Material and Methods.....	67
4.2.1.Experimental Setup.....	67
4.2.2.Modelling Adsorption Equilibria of Mixtures	69
4.2.3.Modelling dynamic Adsorption	73
4.3. Results and Discussion.....	81
4.4. Conclusion.....	90
4.5. Supplementary Material	92
5. Kinetic Separation of CO ₂ /CH ₄ Mixtures with Ni-MOF-74@Al ₂ O ₃ Core-Shell Composites	115
5.1. Introduction	115
5.2. Materials and Methods	117
5.2.1.Material Synthesis.....	117
5.2.2.Material Characterization	118
5.2.3.Experimental Setup.....	123
5.2.3.1.Equilibrium Apparatus.....	123
5.2.3.2.Packed bed Adsorber (Breakthrough Plant)	123
5.3. Adsorption Analysis.....	124
5.3.1.Adsorption Dynamics and Equilibria	124
5.3.2.Breakthrough Experiments	129
5.3.3.Evaluation of the Results	132
5.4. Conclusions	135
6. Summary and Outlook.....	136
7. Notations.....	138
8. References	142
9. Appendix.....	152
9.1. Matlab Codes.....	152
9.1.1.Static Adsorption	152
9.1.2.Dynamic Adsorption.....	180
9.2.Declaration on Authorship	207
9.3. Student Theses.....	208
9.4. Publications and Presentations	209
9.4.1.List of peer reviewed Publications.....	209
9.4.2.List of Presentations.....	209
9.4.3.List of Posters	210
9.5. Curriculum Vitae	211
