

Table of Contents

SYMBOLS, INDICES, AND ABBREVIATIONS	xi
1 INTRODUCTION	1
2 STATE OF THE ART	9
2.1 Thermophysical Properties of Liquids with Dissolved Gases	11
2.1.1 Relevance of Thermophysical Properties of Liquids with Dissolved Gases for Technical Applications	11
2.2 Review of Thermophysical Property Research on Liquids with Dissolved Gases.....	15
2.2.1 Experiment	15
2.2.2 Computer Simulations.....	28
3 AIM OF THIS THESIS.....	37
4 APPLIED STRATEGY AND USED METHODS	39
4.1 Model Systems of Interest	39
4.2 Dynamic Light Scattering.....	40
4.2.1 Surface Light Scattering – Viscosity and Interfacial Tension	40
4.2.2 Dynamic Light Scattering from Bulk Fluids – Diffusion Coefficient	45
4.3 Equilibrium Molecular Dynamics Simulations.....	47
4.3.1 Viscosity	49
4.3.2 Interfacial Tension.....	51
4.3.3 Diffusion Coefficients	52
5 RESULTS AND DISCUSSION.....	57
5.1 Viscosity and Interfacial Tension	57
5.2 Mutual Diffusion Coefficients in Binary Mixtures Consisting of Liquids with Dissolved Gases	68
6 CONCLUSIONS AND PROSPECT.....	77
REFERENCES	81
APPENDIX A: PUBLICATIONS	109
