Foreword	xiv
<i>Miguel Arraez</i>	
Foreword	xv
<i>Madjid Samii</i>	
Foreword	xvi
<i>Franco Servadei</i>	
Foreword	xvii
<i>Robert J. Spinner</i>	
Preface	xviii
Acknowledgments	xix
Contributors	xx
1 Nerve Anatomy of the Upper Limbs	1
<i>Gilda Di Masi and Gonzalo Javier Hugo Bonilla</i>	
1.1 Supraclavicular Brachial Plexus	1
1.1.1 Collateral Branches of the Supraclavicular Brachial Plexus	2
1.2 Infraclavicular Brachial Plexus	3
1.2.1 Collateral Branches of the Infraclavicular Brachial Plexus	3
1.3 Terminal Branches of the Brachial Plexus	4
1.3.1 Radial Nerve	4
1.3.2 Median Nerve	5
1.3.3 Ulnar Nerve	6
1.3.4 Musculocutaneous Nerve	7
1.3.5 Axillary Nerve	8
References	8
2 Surgical Anatomy and Approaches to the Nerves of the Lower Limb	10
<i>Fernando Martínez and Federico Salle</i>	
2.1 Introduction	10
2.2 Lumbar Plexus	10
2.2.1 Inguinal Group	11
2.2.2 Femoral Group	11
2.3 Sacral Plexus	14
3 Nerve Injuries: Anatomy, Pathophysiology, and Classification	18
<i>Bassam M. J. Addas</i>	
3.1 Anatomy of the Peripheral Nerves	18
3.2 Traction Injury	19
3.3 Laceration Injury	20
3.4 Compression/Pressure Injury	20

3.5	Injection Injury	22	3.6.2	Thermal Injury	22
3.6	Rare Forms of Peripheral Nerve Injuries	22	3.6.3	Radiation Injury	23
3.6.1	Electrical Injuries	22		References	23
4	Clinical Aspects of Peripheral Nerve Lesions in the Upper Limb	24			
	<i>Javier Robla Costales, Luis Domitrovic, David Robla Costales, Javier Fernández Fernández, and Javier Ibáñez Plágaro</i>				
4.1	Introduction	24	4.4.1	Motor Innervation	32
4.2	Musculocutaneous Nerve	24	4.4.2	Sensory Innervation	34
4.3	Median Nerve	26	4.4.3	Clinical Findings	35
4.3.1	Motor Innervation	26	4.5	Radial Nerve	36
4.3.2	Sensory Innervation	30	4.5.1	Motor Innervation	36
4.3.3	Martin-Gruber and Riche-Cannieu Anastomoses	30	4.5.2	Sensory Innervation	39
4.3.4	Clinical Findings	31	4.5.3	Clinical Findings	40
4.4	Ulnar Nerve	31		Further Readings	41
5	Clinical Aspects of Traumatic Peripheral Nerve Lesions in the Lower Limb	42			
	<i>Yuval Shapira and Shimon Rochkind</i>				
5.1	Introduction	42	5.4.2	Injuries	46
5.2	Lumbosacral Plexus	42	5.5	Femoral Nerve	46
5.3	Sciatic, Tibial, and Peroneal Nerve	42	5.5.1	Anatomy	46
5.3.1	Anatomy	42	5.5.2	Femoral Nerve Lesions	46
5.3.2	Injuries	43	5.5.3	Saphenous Nerve Lesions	46
5.3.3	Common Sites and Types of Nerve Lesions	45	5.5.4	The Symptoms and Signs of Femoral Nerve Involvement	46
5.3.4	Symptoms and Signs of Common Peroneal Nerve Injury	45	5.6	Conclusion	47
5.3.5	Symptoms and Signs of Tibial Nerve Injury	46		References	47
5.4	Obturator Nerve	46			
5.4.1	Anatomy	46			
6	Electrodiagnostic Pre-, Intra-, and Postoperative Evaluations	48			
	<i>Carlos Alberto Rodríguez Aceves, Miguel Domínguez Páez, and Victoria E. Fernández Sánchez</i>				
6.1	Basic Considerations	48	6.2.2	Demyelination	48
6.1.1	Anatomical Characteristics	48	6.3	EDSs for Preoperative Evaluations	49
6.1.2	Physiological Characteristics	48	6.3.1	Technical Considerations	49
6.2	Pathophysiology	48	6.3.2	Nerve Conduction Studies/ Electroneurography	49
6.2.1	Axonal Damage	48	6.3.3	Electromyography	51

6.4	Electrophysiological Findings with Different Types of Nerve Injury	52	6.6.2	Intraoperative Monitoring Techniques ...	54
			6.6.3	Surgical Procedures	56
6.5	When Are EDSs Indicated?	53	6.7	EDSs for Postoperative Evaluations	56
6.6	EDSs for Intraoperative Evaluations ...	53	6.8	Conclusion	57
6.6.1	Lesions-in-continuity	53		References	57
7	Magnetic Resonance Neurography and Peripheral Nerve Surgery	59			
	<i>Daniela Binaghi and Mariano Socolovsky</i>				
7.1	Introduction	59	7.4	Tumors	62
7.2	Trauma	59	7.5	Conclusion	63
7.3	Entrapment Neuropathies	62		References	64
8	Ultrasound in Peripheral Nerve Surgery	65			
	<i>Maria Teresa Pedro and Ralph W. König</i>				
8.1	Introduction	65	8.4	Trauma	68
8.2	How to Start (Basic Principles)	65	8.4.1	Preoperative HRU	68
8.3	Compression Neuropathies	66	8.4.2	Intraoperative HRU	68
8.3.1	Compression Neuropathies of the Upper Limb	66	8.5	Tumor	69
8.3.2	Compression Neuropathies of the Lower Limb	66		References	73
8.3.3	Recurrent Compression Neuropathies	66			
9	Surgical Repair of Nerve Lesions: Neurolysis and Neurorrhaphy with Grafts or Tubes	74			
	<i>Sudheesh Ramachandran and Rajiv Midha</i>				
9.1	Introduction	74	9.6.2	Allografts	78
9.2	Evaluation and Approach	74	9.7	Nerve Tubes	79
9.3	General Principles of Nerve Repair	75	9.7.1	Autologous Conduits	80
9.4	Neurolysis	75	9.7.2	Artificial Conduits	80
9.5	Direct Repair	75	9.8	Post-op Management	81
9.5.1	End-to-End Repair	75	9.9	Tissue Engineering and Future of Nerve Repairs	81
9.5.2	End-to-Side Repair	76		References	82
9.6	Nerve Grafting	77			
9.6.1	Autografts	77			

10	Timing in Traumatic Peripheral Nerve Lesions	84		
	<i>Leandro Pretto Flores</i>			
10.1	Introduction	84	10.5.1	Open Wounds: Laceration Mechanism ... 86
10.2	Basic Science as an Aid for Taking an Important Decision	84	10.5.2	Open Injuries: Gunshot Wounds 87
10.3	Initial Evaluation of a Peripheral Nerve Injury	85	10.5.3	Closed Injuries: Traction or Compression . 87
10.4	Causes of Traumatic Peripheral Nerve Injury	85	10.5.4	Closed Injuries: Special Situations 88
10.5	Specific Surgical Timing	86	10.6	Conclusion
				References
11	Outcomes in the Repair of Nerve Injuries	90		
	<i>Lukas Rasulic and Miroslav Samardzic</i>			
11.1	Prognostic Factors	90	11.2	General Grading Systems
11.1.1	Patient Age	90	11.2.1	Upper Extremity Repair
11.1.2	Characteristics of the Nerve	90	11.2.2	Lower Extremity Repairs
11.1.3	Characteristics of the Nerve Injury	91		References
11.1.4	Surgery	92		
11.1.5	Postoperative Rehabilitation	92		
12	Gunshot and Other Missile Wounds to the Peripheral Nerves	98		
	<i>Miroslav Samardzic and Lukas Rasulic</i>			
12.1	Introduction	98	12.4	Indications for and Timing of Surgery ... 100
12.2	Clinical Characteristics	99	12.5	Results and Prognosis
12.2.1	Brachial Plexus	99	12.5.1	Brachial Plexus
12.2.2	Peripheral Nerves	99	12.5.2	Peripheral Nerves
12.3	Characteristics of Nerve Lesions	99	12.6	Conclusion
12.3.1	Brachial Plexus	99		References
12.3.2	Peripheral Nerves	100		
13	Compressive Lesions of the Upper Limb	105		
	<i>Gregor Antoniadis and Christine Brand</i>			
13.1	Median Nerve	105	13.3	Radial Nerve
13.1.1	Carpal Tunnel Syndrome	105	13.3.1	Radial Nerve Entrapment at the Elbow (Posterior Interosseous Nerve Syndrome)
13.1.2	Median Nerve Entrapment at the Elbow ..	107	13.3.2	Radial Sensory Nerve Entrapment (Wartenberg's Syndrome, Cheiralgia Paresthetica)
13.2	Ulnar Nerve	109	13.4	Suprascapular Nerve Entrapment
13.2.1	Ulnar Nerve Entrapment at the Elbow	109		
13.2.2	Ulnar Nerve Entrapment at the Wrist (Guyon's Syndrome)	111		

13.4.1	Clinical Presentation	112	References	113
13.4.2	Timing	113		
13.4.3	Surgical Strategy	113		
14	Compressive Lesions of the Lower Limb and Trunk	115		
	<i>Christian Heinen and Thomas Kretschmer</i>			
14.1	Nerves	115	14.1.5	Ilioinguinal Nerve/Iliohypogastric Nerve/ Genitofemoral Nerve
14.1.1	Sciatic Nerve	115	14.1.6	Femoral Nerve
14.1.2	Peroneal Nerve	117	14.1.7	Obturator Nerve
14.1.3	Tibial Nerve	120	14.1.8	Pudendal Nerve/Pudendal Neuralgia
14.1.4	Lateral Femoral Cutaneous Nerve (Meralgia Paraesthetica)	121	References	126
15	Thoracic Outlet Syndrome	128		
	<i>Mariano Socolovsky, Daniela Binaghi, and Ricardo Reisin</i>			
15.1	Introduction	128	15.3	What Does the Literature Say about TOS?
15.2	Diagnosis and Management of TOS ...	128	15.4	Conclusion
15.2.1	Important Concepts Regarding TOS	128	References	133
15.2.2	Important Concepts in DNTOS	131		
16	Traumatic Brachial Plexus Lesions: Clinical Aspects, Assessment, and Timing of Surgical Repair	135		
	<i>Mario G. Siqueira and Roberto S. Martins</i>			
16.1	Introduction	135	16.5.2	Image Studies
16.2	Types and Mechanisms of Injury	135	16.5.3	Electrodiagnostic Studies
16.3	Location of the Injury	136	16.6	Indications for Surgery
16.4	Pain	137	16.7	Timing of Surgery
16.5	Evaluation of Brachial Plexus Function and Diagnosis	137	16.8	Treatment
16.5.1	Physical Evaluation	137	References	140
17	Traumatic Brachial Plexus Injuries: Surgical Techniques and Strategies	141		
	<i>Debora Garozzo</i>			
17.1	Main Principles in Repair Strategy for Brachial Plexus Injuries	141	17.2.1	Repair Strategies Depending on the Injury Pattern
17.1.1	Reinnervation Priorities	141	17.3	Outcome of Surgical Reinnervation ...
17.1.2	Surgical Approach	141	References	147
17.2	Repair Strategies	141		

18	Neonatal Brachial Plexus Palsy: Clinical Presentation and Assessment	149		
	<i>Thomas J. Wilson and Lynda J-S Yang</i>			
18.1	Epidemiology and Risk Factors	149	18.4	Electrodiagnostics
18.2	Clinical Assessment	150	18.5	Surgical Assessment
18.3	Imaging	151		References
19	The Neonatal Brachial Plexus Lesion: Surgical Strategies	155		
	<i>W. Pondaag and M.J.A. Malessy</i>			
19.1	Introduction	155	19.5.2	Group 2: C5, C6, C7, (C8) Lesions
19.2	Selection for Surgery	155	19.5.3	Group 3: C5, C6, C7, C8, T1 Lesions
19.3	Surgical Exposure	155		(Pan-plexopathy)
19.3.1	Supraclavicular Exposure	155	19.5.4	Postoperative Care
19.3.2	Infraclavicular Exposure	157		
19.3.3	Exposure and Technique for Nerve Transfers	158	19.6	Results of Nerve Surgery
19.4	Assessment of the Severity of the Lesion	159	19.6.1	Factors That Affect Functional Recovery after Nerve Repair
19.5	Principles Underlying Strategies for Surgical Reconstruction	159	19.6.2	Shoulder Function
19.5.1	Group 1: C5, C6/Upper Trunk Lesions	161	19.6.3	Hand Function
			19.6.4	Elbow Flexion
			19.6.5	Evaluation of Outcome
			19.7	Conclusion
