1 Introduction 1

 1.1 Empirical motivation..... 1

 1.1.1Reforms..... 1

 1.1.2Technology adoption 5

 1.2 Research problem and questions..... 6

 1.3 Research approach: Theoretical foundations 8

 1.4 Structure of the thesis..... 12

2 Theoretical framing..... 13

 2.1 New Institutional Economics 13

 2.1.1Institutions..... 14

 2.1.2Analyzing institutions 17

 2.2 Understanding reforms..... 19

 2.2.1Reforms: New Institutional Economics perspective..... 19

 2.2.2Theories of institutional change..... 21

 2.3 Understanding technology adoption 24

 2.3.1Economic approaches 27

 2.3.2Sociological approaches..... 35

 2.3.3Convergence of relevant theories of technology adoption 38

 2.4 Conclusions 42

3 Analytical framework and methods 45

 3.1 Analytical framework..... 45

 3.2 Model 48

 3.3 Methods..... 53

 3.3.1Research strategy 53

3.3.2	Methods to answer different research questions.....	54
3.4	Conclusions	55
4	Power sector reforms and impact on distribution sector performance...	57
4.1	Indian power-sector reform: Breaking up inherited structures	57
4.1.1	Pre-reform organization and performance of the power sector.....	57
4.1.2	Addressing generation capacity	61
4.1.3	State level reform initiatives	62
4.1.4	Distribution sector seeks attention	64
4.1.5	Electricity Act 2003	66
4.2	Impact of reforms on electricity distribution sector performance	68
4.2.1	Technical performance.....	70
4.2.2	Operational performance	73
4.2.3	Financial performance	78
4.3	Conclusions	83
5	Actors and action situations in the technology-adoption process.....	85
5.1	Introduction	85
5.2	Data and methods	85
5.3	Actor analysis of the Indian electricity distribution sector	86
5.3.1	Problem formulation	87
5.3.2	Inventory of actors	87
5.3.3	Deducing formal relations.....	87
5.3.4	Mapping interests, objectives, and perceptions of actors	90
5.3.5	Actors resources and interdependencies	95
5.3.6	Key actors	98
5.4	Discussion	98
5.5	Conclusions	99
6	Institutions, governance structure and technology: Interplay	101
6.1	Introduction	101
6.2	Theory	102
6.2.1	Approach to regulation	103
6.2.2	Approach to technology adoption.....	107
6.3	Interrelationships between regulation and technology adoption	108
6.4	Data and methods.....	112
6.5	Analysis: A case study of Andhra Pradesh	113

6.5.1 Institutional endowments of Andhra Pradesh..... 115

6.5.2 Transactions between state electricity regulatory commission and government..... 119

6.5.3 Transactions between state electricity regulatory commission and utilities..... 123

6.5.4 Transactions between state electricity regulatory commission, utilities, and government..... 126

6.5.5 Physical transactions..... 127

6.5.6 Interdependencies between physical and institutionalized transactions..... 129

6.6 Discussion 130

6.7 Conclusions 133

7 Institutional aspects influencing adoption of loss-reduction technologies and the significance of reforms 135

7.1 Approach to factors influencing adoption of loss-reduction technologies..... 135

7.2 Data and methods..... 139

7.3 Factors influencing adoption of loss-reduction technologies 142

7.3.1 Sector-level factors 144

7.3.2 Utility-level factors 149

7.3.3 Sector–consumer interaction level factors..... 150

7.4 Effects of factors on decisionmaking processes 151

7.5 Ranking of factors..... 154

7.5.1 The Analytical Hierarchy Process design, questionnaire, survey, and data analysis 154

7.5.2 Results..... 156

7.6 Discussion 158

7.7 Conclusions..... 161

8 Conclusions 163

8.1 Summary 163

8.2 Policy implications..... 169

8.3 Theoretical contributions 170

8.4 Limitations and future avenues for research..... 170
