

CONTENTS

CHAPTER 1. Introduction

1.1 Deception and language	1
1.2 Aims of the book	3
1.3 Structure of the book	3

CHAPTER 2. Deception, its nature and its detection

2.1 Shaping deception	5
2.2 The study of deception	8
2.2.1 Theories of deception	9
2.2.2 Professional methods of deception detection	13
2.3 Research on verbal cues to deception: state of the art	20
2.3.1 Essentials of forensic computational linguistics	21
2.3.2 Types of data in deception detection	26
2.3.3 The role of linguistic variables in computer-assisted deception analysis	34

CHAPTER 3: Research methodology

3.1 Contextualizing the studies	44
3.2 Method	47
3.2.1 Nature of the study	48
3.2.2 Corpora	52
3.2.3 Statistical analyses	61

CHAPTER 4. Experiment 1: Low-stakes deception

4.1 Introduction	69
------------------	----

4.2 Linguistic analysis and variables	69
4.2.1 LIWC variables	70
4.2.2 Further stylometric variables	73
4.3 Results and discussion	74
4.3.1 Results for English	74
4.3.2 Results for Spanish	78
4.3.3 Subcorpora in English	84
4.3.4 Subcorpora in Spanish	94
4.3.5 Summary of results in both languages	105
CHAPTER 5. Experiment 2: Low-stakes vs. high-stakes deception	
5.1 Introduction	109
5.2 Data analysis	110
5.2.1 Linguistic analysis	110
5.2.2 Statistical analysis	111
5.3 Results and discussion	112
5.3.1 Results: High-stakes dataset	112
5.3.2 Results: Low-stakes dataset	113
5.3.3 Summary of results	116
CHAPTER 6. Final remarks, limitations of the study and further research	
6.1 Final remarks	118
6.2 Limitations of the study	120
6.3 Further research	121
