

Inhaltsverzeichnis – Contents

Visualisierung – Visualisation	1
<i>Christian Kleiner, Peter Birkholz</i>	
Comparison of Object Tracking Algorithms for Larynx Phantom Movements in Ultrasound Videos	1
<i>Frederick Kukla, Vanessa Reichel</i>	
Anwendung des MFCC-Plotters zur Erfassung cepstraler Unterschiede in emotionaler Sprache	9
<i>Christoph Drazler</i>	
Analysis of Transcriptions Using Octra – A Pilot Study	17
Interaktion & Dialog – Interaction & Dialogue	24
<i>Anna-Maria Meck</i>	
How May I Interrupt? Linguistic Design Guidelines for Proactive In-Car Voice Assistants	24
<i>Mika Rebensburg, Stefan Hillmann, Nils Feldhus</i>	
Automatic User Experience Evaluation of Goal-Oriented Dialogs Using Pre-Trained Language Models	32
<i>Philine Görzig, Jan Nehring, Stefan Hillmann, Sebastian Möller</i>	
A Comparison of Module Selection Strategies for Modular Dialog Systems	40
<i>Stefan Hillmann, Philine Görzig, Sebastian Möller</i>	
Automatic Generation of Website-Based Multi-Turn Question-Answering Dialog Systems	48
Emotion	56
<i>Felix Burkhardt, Uwe Reichel, Florian Eyben, Björn Schuller</i>	
Going Retro: Astonishingly Simple Yet Effective Rule-Based Prosody Modelling for Speech Synthesis Simulating Emotion Dimensions	56
<i>Jan Hintz, Andreas Wendemuth, Ingo Siegert</i>	
Cross-Reliability Benchmark Test for Preserving Emotional Content in Speech-Synthesis Related Datasets	64
Kinderstimmen – Child Speech	72
<i>Hanna Ehlert, Edith Beaulac, Maren Wallbaum, Christopher Gebauer, Lars Rumberg, Jörn Ostermann, Ulrike Lüdtkke</i>	
Collecting and Annotating Natural Child Speech Data – Challenges and Interdisciplinary Perspectives	72
<i>Christopher Gebauer, Lars Rumberg, Jörn Ostermann</i>	
Pronunciation Modelling for Children’s Speech	79

Phonetik – Phonetics	87
<i>Birgitte Poulsen, Ocke-Schwen Bohn, Christoph Draxler</i>	
A First Report on a Perceptual Trainig Study Using Percy	87
<i>Jürgen Trouvain, Raphael Werner</i>	
Muster der Sprechatmung in verschiedenen Sprechstilen – Eine Pilotstudie .	95
<i>Alexis Deighton MacIntyre, Raphael Werner</i>	
An Automatic Method for Speech Breathing Annotation	103
<i>Simon Betz</i>	
Hesitation Lengthening Elicitation and Detection via Target Words in a Card Game Study	111
Sprachpathologie – Speech Pathology	119
<i>Konstantin Sering, Paul Schmidt-Barbo</i>	
Somatosensory Feedback in PAULE	119
<i>Eugenia Rykova, Mathias Walther</i>	
Concept for Semantic Error Analysis in a Mobile Application for Speech and Language Therapy Support	127
<i>Hans-Günter Hirsch, Christian Neumann, Yannic Tiggelkamp, Riccardo Fiorista, Stefan Knecht, Alfons Schnitzler, Katja Biermann-Ruben, Dietmar Bothe, Günter Bleimann, Hendrike Frieg</i>	
RehaLingo – Towards a Speech Training System for Aphasia	134
Automatische Spracherkennung – Automatic Speech Recognition	142
<i>Ian S. Howard, Julian McGlashan, Adrian J. Fourcin</i>	
Training a CNN to Estimate Voice Pathology from Connected Speech Using EGG to Automatically Label the Dataset for Voicing	142
<i>Dominik Wagner, Sebastian P. Bayerl, Tobias Bocklet</i>	
Implementing Easy-to-Use Recipes for the Switchboard Benchmark	150
<i>Aaricia Herygers, Vass Verkhodanova, Matt Coler, Odette Scharenborg, Munir Georges</i>	
Bias in Flemish Automatic Speech Recognition	158
Show & Tell	166
<i>Felix Burkhardt</i>	
Nkululeko: A Template Based System for Fast Machine Learning Experiments on Speaker Characteristics	166
<i>Thomas Ranzenberger, Tobias Bocklet, Steffen Freisinger, Lia Frischholz, Munir Georges, Kevin Glocker, Aaricia Herygers, René Peinl, Korbinian Riedham- mer, Fabian Schneider, Christopher Simic, Khabbab Zakaria</i>	
The Hochschul-Assistenz-System HanS: an ML-Based Learning Experience Platform	168
<i>Christoph Draxler, Julian Pömp</i>	
Transcription Portal – A Zero-configuration Workbench for Transcribing Spo- ken Language Recordings	170
Sprachsynthese & -produktion – Speech Synthesis & Production	171
<i>Bernd J. Kröger</i>	
Articulatory Speech Synthesis in the Context of Speech Research and Speech Technology: Review and Prospect	171

<i>Antoine Serrurier</i>	
Can Deep Learning Help to Understand Speech Production Mechanisms? . .	179
<i>Harald Höge</i>	
Synchrony of θ - Oscillations in Speech Perception and Speech Production .	187
Posters	192
<i>Neda Mousavi, Sven Grawunder</i>	
Persian Speaker Classification Using Rhythmic Features	192
<i>Stefan Ciba, Mohammed Krini, Amir Rajabi</i>	
Approach to Speaker-Generalized Spectral Envelope Estimation by Deep Re- current Neural Network for Speech Reconstruction in a Speech Enhancement System	200
<i>Robert Wardenga, Daniel Vogel, Felix Gräßer, Mira Schielke, Leonard Starke, Rico Petrick, Torsten Rex, Jens Lehmann</i>	
iDOKS: Ein integriertes Dokumentationssystem zur Zusammenfassung von Gesprächen und Meetings	207
<i>Jan Nehring, Nils Feldhus, Akhyar Ahmed</i>	
Adapters for Resource-Efficient Deployment of NLU Models	215
<i>Matthias Busch, Malte Kania, Tom Assmann, Ingo Siegert</i>	
Radlogistik als Anwendungsgebiet für Digitale Sprachassistenten – Ein Diskus- sionsbeitrag	223
