

Contents

1 Introduction..... 1

1.1 Evolution of Textile Technology 1

1.2 Importance of the Textile Industry 4

1.3 Manufacturing Steps..... 5

1.4 Textile Products 9

1.5 References 12

2 Raw Materials..... 13

2.1 Natural Fibers..... 14

2.1.1 Plant-Derived Fibers 14

2.1.2 Animal Fibers 24

2.1.3 Mineral Fibers..... 31

2.2 Chemical Fibers..... 31

2.2.1 Manufacturing Processes..... 31

2.2.2 Chemical Fibers from Natural Polymers 36

2.2.3 Chemical Fibers from Synthetic Polymers..... 47

2.2.4 Chemical Fibers from Inorganic Raw Materials 52

2.2.5 Further Processing..... 54

2.3 Examples..... 62

2.4 References 69

3 Principles and Machinery for Yarn Production..... 74

3.1 Cotton Spinning 74

3.1.1 Spinning Preparation Machines 77

3.1.2 Combing Room 86

3.1.3 Ring Spinning Process..... 88

3.1.4 Nonconventional Spinning Principles..... 93

3.2 Worsted Yarn Spinning..... 100

3.3 Mock-Worsted Spinning 106

3.4 Carded Woolen Spinning..... 107

3.5 Development Trends 110

3.6 Fineness Measurements of Fibers and Yarns..... 112

3.7 Summary of the Measurement Systems 115

3.8 Examples..... 117

3.9 References 118

4 Principles and Machinery for Production of Woven Fabrics..... 124

4.1 Production Principles..... 124

4.2	Preparation for Weaving	125
4.2.1	Winding	125
4.2.2	Twisting	127
4.2.3	Preparation of the Warp Beam	128
4.2.4	Warping	129
4.2.5	Section Warping	129
4.2.6	Sizing	129
4.3	Construction of Woven Fabrics	130
4.3.1	Basic Weave Patterns	131
4.3.2	Special Weaving Techniques	132
4.4	Design and Principle of Weaving Looms	134
4.5	Development Trends	141
4.6	Examples	142
4.7	References	147
S	Processes and Machines for Knitwear Production	152
5.1	Stitch Formation	152
5.2	Machines for Stitch Formation	156
5.2.1	Knitting Machines	156
5.2.2	Warp-Knitting Machines	160
5.3	Development Trends	163
5.4	Examples	164
5.5	References	165
6	Processes and Machines for Nonwoven Production	167
6.1	Processes and Machines	168
6.1.1	Processes of Web Formation	169
6.1.2	Web Bonding Processes	174
6.1.3	Finishing	180
6.2	Applications	182
6.3	Development Trends	184
6.4	Examples	186
6.5	References	187
7	Braiding Processes and Machines	188
7.1	Braiding Process	189
7.1.1	Conventional Braiding Processes	189
7.1.2	Process for the Production of 3D Braids	191
7.2	Division of Braids	199
7.3	Development Trends	201

7.4	References	202
8	Processes and Machines for the Production of Two-Dimensional Reinforcing Fabrics with Multiaxial Construction.....	205
8.1	Warp-Knitted Multiaxial Fabrics (MAG)	205
8.1.1	From Warp-Knitted Fabrics to MAG.....	205
8.1.2	Production and Characteristics of MAG.....	207
8.1.3	Unconventional Use of the LIBA Technology	209
8.2	Malimo Stitch Bonding Technology.....	210
8.2.1	The Stitch Warp-Knitted Fabric.....	210
8.2.2	Multiaxial Stitch Bonded Fabrics	211
8.2.3	Variable Stitch Bonded Multi-Ply Fabrics (NVG).....	211
8.3	Development Trends	213
8.4	References	213
9	Processes and Machines for Textile Finishing	216
9.1	Pretreatment.....	216
9.1.1	Dry Pretreatment.....	217
9.1.2	Wet Pretreatment.....	218
9.1.3	Fiber-Specific Processes	222
9.2	Drying	227
9.3	Coloration	229
9.3.1	Dyeing	229
9.3.2	Printing.....	232
9.4	Appret.....	234
9.4.1	Chemical Appret.....	236
9.4.2	Mechanical Finishing.....	236
9.4.3	Thermal Finishing.....	237
9.5	Coating	237
9.6	Development Trends	238
9.7	Examples.....	239
9.8	References	241
10	Processes and Machines for Clothing Manufacture.....	243
10.1	Separation	244
10.2	Processes of Joining	248
10.2.1	Sewing.....	248
10.2.2	Bonding and Setting.....	256
10.2.3	Welding	257
10.3	Forming.....	258

10.4	Automation	259
10.5	Development Trends	262
10.6	Examples.....	262
10.7	References	263
11	Technical Textiles.....	266
11.1	Definitions of Technical Textiles.....	266
11.2	Examples of Technical Textiles.....	267
11.2.1	Fiber-Reinforced Material.....	267
11.2.2	Protective Textiles (Mobitech, Protech)	271
11.2.3	Textiles for Civil Engineering (Buildtech)	275
11.2.4	Geotextiles (Geotech)	279
11.2.5	Medical Textiles (Medtech)	287
11.3	Development Trends	291
11.4	References	292
12	Disposal and Recycling of Textiles	296
12.1	Circulation of Material in the Textile Industry	296
12.1.1	Life Cycle of a Product.....	296
12.1.2	"Kreislaufwirtschafts- und Abfallgesetz" (Economic Cycle and Waste Law)	301
12.2	Examples of Recycling	302
12.2.1	Production Waste.....	302
12.2.2	Apparel.....	302
12.2.3	Carpeting.....	304
12.2.4	Automobile Textiles.....	305
12.2.5	Processing and Treatment of Reprocessed Fibers.....	307
12.3	Development Trends	311
12.4	Examples.....	312
12.4.1	Jeans.....	312
12.4.2	Carpets.....	312
12.4.3	Airbags	312
12.5	References	313
	Index	315
