

Contents

1 Cranium

Normal Findings/AV Malformation/Aneurysm/ Subarachnoid Hemorrhage (SAH)	2	Pharmacologic Effect/Primary Brain Tumor/ Multiple Sclerosis	21
CT Section of a Cerebral Fissure/Cerebral Infarction .	6	Cause of Intracerebral Hemorrhage: Arterial Hypertension/AV Malformation/Aneurysm/ Glioblastoma	24
Age-Normal Findings/Fresh Cerebral Ischemia/ Old Infarction	8	Postoperative: Cerebellar Infarction/Residual Tumor/ Hematoma/Abscess	27
Traumatic Intraparenchymal Hemorrhage/ Cavernoma/Tumor	13	Cranial CT: Exclusion of Metastases	30
Normal Variant/AV Malformation/Aneurysm/ Subarachnoid Hemorrhage	17	Carcinoma of the Oral Floor/Soft-Tissue Abscess/ Osteomyelitis	32

2 Chest

Normal Postoperative Findings?	36	Sarcoidosis/Bronchial Carcinoma/Malignant Lymphoma	74
Nonradiopaque CVC/Malpositioned CVC/Failure of CVC Placement	38	Thrombosis due to Thrombophilia/Hodgkin Disease, Non-Hodgkin Lymphoma/Thymoma/Thymic Carcinoma	78
Situs Inversus?	39	Normal Pulmonary Findings/Pulmonary Sequestration	83
Normal Findings after Pacemaker Implantation/ Broken Wire/Insulation Defect	40	Pulmonary Involvement by Lymphoma/ Pneumonia/Abscess	86
Malpositioned CVC?	42	Bronchial Carcinoma/Inflammatory Pseudotumor ..	90
Normal Postoperative Findings/Mediastinal Mass ...	45	Normal Radiographic Findings/Bronchopneumonia/ Scar/Bronchial Carcinoma	93
Pneumonia/Pulmonary Venous Congestion/ Pulmonary Emphysema	49	Bronchial Carcinoma/Pulmonary Metastasis/ Indurated Pleural Focus/Rib Metastasis/ Encapsulated Pleural Effusion	96
Pneumonia/Tumor/Cavity	51	Negative Oncologic Findings/Metastasis/Bronchial Carcinoma	98
Pleural Effusion/Atelectasis	54	Solitary Pulmonary Metastasis from an Unknown Primary/Benign Pseudotumor/Peripheral Bronchial Carcinoma	101
Pneumonic Infiltrates/Pulmonary Metastases	56	Lung Cancer/Scar Tissue	105
Intrapleural Fat/Pleural Effusion/Pulmonary Infiltrate	59	Inflammatory Pseudotumor/Bronchial Carcinoma ..	110
Aortic Dissection/Aortic Wall Hematoma/ Mediastinal Hematoma	61	Normal Mediastinal and Hilar Findings/Scars/Recurrence of Bronchial	
Perforated Aortic Dissection/Venous Mediastinal Hemorrhage	63		
Normal Mediastinum/Pseudotumor/Malignant Lymphoma/Lymph Node Metastases	65		
Follow-up of Thymoma	68		

Carcinoma/Lymph Node Metastases/Appropriate Diagnosis/Overdiagnosis	112	Myocardial Contusion/Myocardial Infarction	125
Dyslectasis/Ischemia/Pneumonia/Carcinomatous lymphangitis/ARDS	117	Ulcerating Histiocytic Lymphoma/Malignant Melanoma	128
Meningitis/Meningeal Granulomatosis/Meningeal Tumor Spread/Hemorrhage/CVC Malfunction/ CVC Malposition	121		

3 Breast

Normal Mammograms/Breast Cancer	132	Breast Cancer?	142
Fibrocystic Change/Breast Cancer	134	Breast Cancer?	145
Breast Cancer/Fibrocystic Change with Microcysts	138	Correct Histopathology Report?	148

4 Abdomen

Liver, Pancreas, and Retroperitoneum _____	151		
Complications of IV Contrast Infusion	152	Retroperitoneal Lymph Node Metastases	168
Thrombosis/Flow Effects	155	Normal Findings/Retroperitoneal Lymphomas	170
Acute Cholecystitis/Contraction of the Gallbladder	156	Hematoma/Malignant Lymphoma/Complicated Renal Cysts	172
Normal Findings/Zonal Fatty Infiltration of the Liver/Hepatic Metastasis	158	Complication of Percutaneous Transhepatic Cholangiodrainage	174
Colon Cancer/Metastasis/Inflammatory Pseudotumor	162	Complication of Percutaneous Transhepatic Cholangiodrainage	177
Cystic Pancreatic Carcinoma/Pancreatic Cystadenoma/Inflammatory Pancreatic or Peripancreatic Pseudotumor	165	Complication of CT-Guided Biopsy?	181
 Gastrointestinal Tract _____	 187		
Iodinated Oral Contrast vs. Barium Sulfate	188	Distended Small-bowel loop/Mechanical Bowel Obstruction/Paralytic Ileus/Sigmoid Diverticulitis/Abscess	200
Iodinated Ionic/Nonionic Contrast Medium	190	Appropriate Work-up/Underdiagnosis/Overdiagnosis	204
Gastrointestinal Perforation/Functional Duodenal Stenosis	192	Mechanical Obstruction of the Small Bowel/Large Bowel	206
Dissecting Abdominal Aortic Aneurysm/Bowel Obstruction and Enteritis	195	Intraperitoneal Air?	208
Paralytic Ileus/Mechanical Bowel Obstruction/Perforation	197		

Normal Postgastrectomy Findings/Colon Perforation/ Postoperative Abscess/Bowel Obstruction	212	Abdominal Radiograph/Fluoroscopic Examination . .	216
Free Intraperitoneal Air/Intestinal Malrotation/ Normal Findings	214	Metastasis/Negative Oncologic Findings	218
Urogenital Tract	223		
Renal Parenchymal Damage/Contrast Infusion Error .	224	Renal Cell Carcinoma/Oncocytoma	237
Four Errors in Examination Technique	227	Revascularization of a Solitary Kidney in Acute Renal Failure: Correct Indication? Sound Interventional Technique?	239
Urinary Tract Obstruction/Parapelvic Renal Cysts . .	229	Extragenital Choriocarcinoma/Residual Scar/ Lymph Node Metastasis/Mature Teratoma	243
Hepatitis/Pancreatitis/Nephritis/Gastrointestinal Infection	231	Extent of Injuries?	245
Nephroblastoma/Neuroblastoma/Ganglioneuroma . .	233		

5 Spinal Column

Normal Findings/Bony Injury	250	Underdiagnosis/Appropriate Work-up	262
Dislocation/Pseudodislocation	252	Assessing the Risk of Spinal Instability: CT, Radiographs, or Both?	266
New/Old Dens Fracture	255	Plain Radiography/MRI to Exclude Skeletal Metastasis	268
Normal Findings/Bony Injury	259		

6 Musculoskeletal System

Bony Injury?	272	Appropriate Work-up/Overdiagnosis/Misdiagnosis . .	286
Postoperative Follow-up after Internal Fixation/Refracture/Laterality Error	275	Overdiagnosis/Misdiagnosis	291
Degenerative Changes/Osteolytic Lesions	279	Septic Thrombosis/Pyomyositis/Malaria	297
Skeletal Metastases: CT/Plain Radiographs	281	Adverse Reaction to Contrast Medium?	301
Flawed Examination Technique?	284	Proper Risk Disclosure? Correct Examination Technique?	303

7 Vascular System

Vasospasm/Thromboembolism/Contrast Reaction . . .	308	Vertebrogenic Back Pain/Retroperitoneal Hematoma	352
Complication of Embolization	317	Complications of a Transjugular Intrahepatic Portosystemic Shunt?	354
Complication of an Interventional Procedure	321	Hepatic Metastases from Colon Cancer: Complication of Transarterial Chemoembolization . .	357
Internal Carotid Artery Aneurysm/Infundibular Origin of the Posterior Communicating Artery	328	Hepatic Rupture, Intrahepatic vs. Extrahepatic Hematoma/Hemangioma	361
Cause of Death: Cerebral Ischemia/Pulmonary Embolism/Myocardial Infarction	330	Hepatocellular Carcinoma: Complication of Transarterial Chemoembolization	364
Renal Artery Stenosis?	332	Intravascular Foreign Body?	368
Complication of PTA and Stenting of the Renal Artery	335	Pneumothorax/Mediastinal Hematoma/Pulmonary Embolism	370
Vascular Perforation during Subintimal PTA and Stenting	339	Complication of Minimally Invasive Placement of a Central Venous Port Catheter?	373
Complication of Intra-Arterial Thrombolytic Therapy?	343	Complication of Tumor Embolization	375
Complication of Peripheral Intra-Arterial Thrombolytic Therapy	347		
Index	379
