Abstract	4
Zusammenfassung	5
Résumé	6
1 Introduction	7
2 Physical Features of the Examined Area	8
2.1 Landscape	8
2.2 Geology and Landscape History	8
2.3 Soils	10
2.4 Hydrography	13
2.5 Climate	15
2.5.1 Introduction and General Features	15
2.5.2 Seasonal and Diurnal Changes of Climate Parameters	18
2.5.2.1 Evaporation	18
2.5.2.2 Seasonal Changes in Temperature	20
2.5.2.3 Diurnal Changes in Temperature and Atmospheric Humidity	20

2.5.2.4 Rainfall	20
2.5.3 Influence of Rainfall on the Vegetation	28
3 Vegetation	29
3.1 Floristics	29
3.2 Description and Ecological Classification of the Vegetation	36
3.2.1 Methods	36
3.2.2 Ecological Groups of Species	44
3.2.2.1 Savanna Species	44
3.2.2.2 Species of Savanna and Bushland	45
3.2.2.3 Species Ranging from the Savanna to the Lower Forest	45
3.2.2.4 Bushland Species	45
3.2.2.5 Species of Croton-Forest	45
3.2.2.6 Species of Olea-Juniperus-Forest	45
3.2.2.7 Species of Podocarpus-Forest	45
3.2.2.8 Species of Croton-Olea- and Podocarpus gracilior-Forest	46
3.2.2.9 Wide-Ranging Forest Species	46
3.2.2.10 Species of Lower Riverine Forest	46
3.2.2.11 Species of Higher Riverine Forest	46
3.2.2.12 Species of Forest Clearings	46
3.2.2.13 Species of Areas with Black Vertisols	46
3.2.2.14 Pasture Weeds	47
3.2.2.15 Species of Rocky Habitats	47
3.2.2.16 Species of High-Altitude Bushland	47
3.2.2.17 Species of High-Altitude Grassland	47
3.2.2.18 Species of Erosion Gullies	47
3.2.2.19 Achyranthes aspera	48
3.2.3 The "Antagonism" Grassland - Bushland	48
3.2.4 Vegetation Units	49
3.2.4.1 Wooded Grassland	49
3.2.4.2 Grassland	51
3.2.4.3 Eroded Areas and Areas with Pasture Weeds	52
3.2.4.4 Areas with Black Vertisols	54
3.2.4.5 Acalypha-Thicket	55
3.2.4.6 Bushland	56
3.2.4.7 Rocky Outcrops	57
3.2.4.8 Croton-Forest	59
3.2.4.9 Olea-Juniperus-Forest	61
3.2.4.10 Podocarpus-Forest	62
3.2.4.11 Clearings	64
3.2.4.12 Riverine Vegetation	66
3.3 Vegetation Patterns	67
3.3.1 Vegetation Patterns along the Altitudinal Gradient	67
3.3.1.1 Profile through Lpiwa Summit	68
3.3.1.2 Profile Wamba - Mathews Range - Sarrara	70
3.3.2 Horizontal Patterns, Vegetation Map	72
3.4 Phenology	72
3.4.1 Phenology and Land Utilization	72
3.4.2 Phenology of the Vegetation around Wamba	73
3.5 Vegetational Changes	76
3.6 Examples of Pasture Areas around Wamba	79
4 Wildlife	81
4.1 General Description	81
4.2 Game Animals as an Economic Factor	82
5 Land Use by the Keeping of Livestock	84
5.1 Population of the Samburu-District	84
5.1.1 Samburu Society	84
5.1.2 Demographic Development	85
5.2 Traditional Domestic Animals of the Samburu	86
5.3 Traditional Animal Husbandry and Range Management	88
5.4 Carrying Capacity, Range Management and Land Use	90
5.4.1 General Analysis	90
5.4.2 Carrying Capacity of the Samburu-District	92

5.4.3 Strategies for Times of Hardship	93
5.4.4 Marketing of Livestock	94
5.5 History, Grazing Management and Control in the Samburu-District	97
5.6 Grazing Schemes	106
5.6.1 Previous Grazing Schemes	106
5.6.2 Future Grazing Schemes	107
5.7 Influence of Overgrazing	109
5.7.1 Degradation of Vegetation and Soil Erosion	109
5.7.2 Influence on Water Supply	110
5.8 Regeneration of Range Areas	111
5.9 Specific Situation in Wamba	114
6 Condition and Importance of Forests	116
6.1 Mathews Range	117
6.2 Other Forest Areas	118
7 Other Utilization of Vegetation and Land	119
7.1 Samburu-Names	119
7.2 Food Plants	121
7.3 Medicinal Plants	124
7.4 Building Material	126
7.5 Production of Goods	131
7.6 Fuel	131
7.6.1 Firewood	131
7.6.2 Charcoal	132
7.7 Tree Planting	137
7.8 Honey	138
8 Agriculture	139
9 Recommendations	140
Acknowledgement	142
Literature	143
List of figures and tables	148
List of maps and aerial photographs	149
List of abbreviations and special expressions	150
Appendix: Fig 23 Infiltration diagrams	150
List of further species not included in the phytosoc. tables	155
Tab 36 Plant list with plant utilization	156
Tab 37 Botanical und Samburu names of the plants, in alphabetical order according to their botanical names	168
Tab 38 Botanical and Samburu names of the plants, in alphabetical order according to their Samburu names	174
Tab 39 Coordinates of the sample sites	181
Tab 22 Interviews of elders from Wamba	182
Enclosures: Fig. 14: Vegetation map of the study area	
Fig. 20: Erosion map of the surroundings of Wamba	
Tab. 9: Phytosociological table of wooded grassland	
Tab. 10: Phytosociological table of grassland	
Tab. 11: Phytosociological table of eroded areas and areas with pasture weeds	
Tab. 12: Phytosociological table of areas with black vertisols	
Tab. 13: Phytosociological table of <i>Acalypha</i> -thicket	
Tab. 14: Phytosociological table of bushland	
Tab. 16: Phytosociological table of <i>Croton</i> -forest	
Tab. 17: Phytosociological table of <i>Olea-Juniperus</i> -forest	
Tab. 18: Phytosociological table of <i>Podocarpus</i> -forest	
Tab. 20: Phytosociological table of riverine vegetation	
Tab. 21: Phenological table, results of all sample sites	
Tab. 22: Interviews with elders from Wambas	
Tab. 35: Phenological tables of the sample sites
