

Pei-Dong Liu Min Qian

Smooth Ergodic Theory of Random Dynamical Systems

Springer

Table of Contents

Introduction	vii
Chapter 0. Preliminaries	1
§1. Measure Theory	1
§2. Measurable Partitions	5
§3. Conditional Entropies of Measurable Partitions	7
§4. Conditional Entropies of Measure-Preserving Transformations: I	9
§5. Conditional Entropies of Measure-Preserving Transformations: II	16
Chapter I. Entropy and Lyapunov Exponents of Random Diffeomorphisms	22
§1. The Basic Measure Spaces and Invariant Measures	22
§2. Measure-Theoretic Entropies of Random Diffeomorphisms	31
§3. Lyapunov Exponents of Random Diffeomorphisms	37
Chapter II. Estimation of Entropy from Above Through Lyapunov Exponents	45
§1. Preliminaries	45
§2. Proof of Theorem 0.1	51
Chapter III. Stable Invariant Manifolds of Random Diffeomorphisms	55
§1. Some Preliminary Lemmas	55
§2. Some Technical Facts About Contracting Maps	61
§3. Local and Global Stable Manifolds	63
§4. Hölder Continuity of Subbundles	73
§5. Absolute Continuity of Families of Submanifolds	84
§6. Absolute Continuity of Conditional Measures	86
Chapter IV. Estimation of Entropy from Below Through Lyapunov Exponents	91
§1. Introduction and Formulation of the Main Result	91
§2. Construction of A Measurable Partition	93
§3. Estimation of the Entropy from Below	103
Chapter V. Stochastic Flows of Diffeomorphisms	109
§1. Preliminaries	109
§2. Lyapunov Exponents and Stable Manifolds of Stochastic Flows of Diffeomorphisms	118
§3. Entropy of Stochastic Flows of Diffeomorphisms	124
Chapter VI. Characterization of Measures Satisfying Entropy Formula	128
§1. Basic Concepts and Formulation of the Main Result	129
§2. SBR Sample Measures: Sufficiency for Entropy Formula	137
§3. Lyapunov Charts	141

§4. Local Unstable Manifolds and Center Unstable Sets	146
§5. Related Measurable Partitions	154
§6. Some Consequences of Besicovitch's Covering Theorem.....	166
§7. The Main Proposition	170
§8. SBR Sample Measures: Necessity for Entropy Formula	175
Chapter VII. Random Perturbations of Hyperbolic Attractors	182
§1. Definitions and Statements of Results	183
§2. Technical Preparations for the Proof of the Main Result	192
§3. Proof of the Main Result	197
Appendix. A Margulis-Ruelle Inequality for Random Dynamical Systems ..	207
§1. Notions and Preliminary Results	207
§2. The Main Result and It's Proof.....	209
References	216
Subject Index	219
