

CONTENTS

Introduction

- | | | |
|---|---|----|
| 1 | Connected and automated driving: The Long Level 4
Mathias Mitteregger, Ian Banerjee | 1 |
| 2 | Connected and automated driving: Consideration of the local, spatial context and spatial differentiation
Emilia M. Bruck, Aggelos Soteropoulos | 7 |
| 3 | Connected and automated driving in the context of a sustainable transport and mobility transformation
Andrea Stickler, Jens S. Dangschat, Ian Banerjee | 17 |

PART I: Mobility and transport	25
---------------------------------------	-----------

- | | | |
|---|---|-----|
| 4 | Self-driving turnaround or automotive continuity? Reflections on technology, innovation and social change
Katharina Manderscheid | 27 |
| 5 | Automated drivability and streetscape compatibility in the urban-rural continuum using the example of Greater Vienna
Aggelos Soteropoulos | 41 |
| 6 | Automation, public transport and Mobility as a Service: Experience from tests with automated shuttle buses
Aggelos Soteropoulos, Emilia M. Bruck, Martin Berger, Alexander Egoldt, Arne Holst, Thomas Richter, Zoltán László | 75 |
| 7 | Delivery robots as a solution for the last mile in the city?
Bert Leerkamp, Aggelos Soteropoulos, Martin Berger | 107 |

PART II: Public space	129
------------------------------	------------

- | | | |
|----|--|-----|
| 8 | Control and design of spatial mobility interfaces
Emilia M. Bruck, Rudolf Scheuven, Martin Berger | 131 |
| 9 | Transformations of European public spaces with AVs
Robert Martin, Emilia M. Bruck, Aggelos Soteropoulos | 157 |
| 10 | At the end of the road: Total safety
Mathias Mitteregger | 177 |

11	Integration of cycling into future urban transport structures with connected and automated vehicles Lutz Eichholz, Detlef Kurth	197
12	Against the driverless city Steven Fleming	219
	Part III: Spatial development Mathias Mitteregger, Rudolf Scheuven	235
13	Strategic spatial planning, “smart shrinking” and the deployment of CAVs in rural Japan Ian Banerjee, Tomoyuki Furutani	237
14	Integrated strategic planning approaches to automated transport in the context of the mobility transformation Mathias Mitteregger, Daniela Allmeier, Lucia Paulhart, Stefan Bindreiter	267
15	Opportunities from past mistakes: Land potential en route to an automated mobility system Mathias Mitteregger, Aggelos Soteropoulos	311
	Part IV: Governance Jens S. Dangschat, Ian Banerjee, Andrea Stickler	335
16	New governance concepts for digitalization: Challenges and potentials Alexander Hamedinger	337
17	How are automated vehicles driving spatial development in Switzerland? Fabienne Perret, Christof Abegg	349
18	Lessons from local transport transition projects for connected and automated transport Andrea Stickler	375
19	Connected and automated transport in the socio-technical transition Jens S. Dangschat	395
20	Data-driven urbanism, digital platforms and the planning of MaaS in times of deep uncertainty: What does it mean for CAVs? Ian Banerjee, Peraphan Jittrapirom, Jens S. Dangschat	431
