

TABLE OF CONTENTS

Preface	III
E. Arrondo, R. Mallavibarrena & I. Sols	
<i>Proof of Schubert's conjectures on double contacts</i>	1
D. Avritzer & I. Vainsencher	
<i>Hilb⁴ P²</i>	30
S. Colley	
<i>Schubert's coincidence formulas for line complexes</i> <i>and the contribution of embedded planar pencils</i>	60
T. Johnsen	
<i>Local multiplicities of tangential trisecants to space curves</i>	77
S. L. Kleiman	
<i>Multiple-point formulas II: The Hilbert scheme</i>	101
D. Laksov & R. Speiser	
<i>Transversality criteria for maps</i>	139
P. Le Barz	
<i>Quelques formules multisécantes pour les surfaces</i>	151
J. M. Miret & S. Xambó Descamps	
<i>On Schubert's degenerations of cuspidal cubics</i>	189
R. Piene & H. Tai	
<i>A characterization of balanced rational normal scrolls</i> <i>in terms of their osculating spaces</i>	215
F. Rosselló	
<i>The Chow ring of Hilb³ P³</i>	225
A. Thorup	
<i>Rational equivalence theory on arbitrary Noetherian schemes</i>	256
Program of the Conference	298
List of Participants	300
