

List of Contents

Introductory Remarks	1
<u>CHAPTER I.</u> A Summary of Some Results on Controls of Hyperbolic Partial Differential Equations	4
<u>Appendix to Chapter I.</u> Remarks Concerning Concepts from the Theory of Generalized Functions Used in Chapter I	58
<u>CHAPTER II.</u> The Optimal Control of Vibrating Beams	61
<u>Appendix 2.1.</u> Formulas for Torsion Constant C and Warping Constant C_w for Some Cross-Sections	118
<u>CHAPTER III.</u> Optimal Control Theory for Thin Plates	119
<u>CHAPTER IV.</u> Classification of the Boundary Conditions in Optimal Control Theory of Beams and Thin Plates	210
<u>Appendix A.</u> Expository Comments Concerning Pontryagin's Maximality Principle	228
<u>Appendix B.</u> Some Related Problems in Control Theory for Vibrating Beams	232
<u>Appendix C.</u> The Class of Admissible Loads of Beam and Plate Theory	234
