

CONTENTS

Chapter 1	
What is a Kleinian group?	
by Lipman Bers	1
Chapter 2	
Quasiconformal mappings and uniformization	
by C. J. Earle	15
Chapter 3	
Automorphic forms and Eichler cohomology	
by Frederick P. Gardiner	24
Chapter 4	
Deformation spaces	
by Irwin Kra	48
Chapter 5	
Metrics on Teichmüller space	
by H. L. Royden	71
Chapter 6	
Moduli of Riemann surfaces	
by William Abikoff	79
Chapter 7	
Good and bad Kleinian groups	
by Bernard Maskit	94
Chapter 8	
Kleinian groups and 3-dimensional topology	
by Albert Marden	108
Research Announcement	
The curvature of Teichmüller space	
by Howard Masur	122
Some Unsolved Problems	
Compiled by William Abikoff	124
