

Muscle Receptors

By

D. Barker · C. C. Hunt · A. K. McIntyre

Edited by

C. C. Hunt

With 128 Figures

Springer-Verlag Berlin · Heidelberg · New York 1974

Contents

Chapter I	The Morphology of Muscle Receptors. By D. BARKER. With 99 Figures	1
Chapter II	The Physiology of Muscle Receptors. By C.C. HUNT. With 21 Figures	191
Chapter III	Central Actions of Impulses in Muscle Afferent Fibres. By A.K. McINTYRE. With 8 Figures	235
Author Index		289
Subject Index		299

Chapter 1

The Morphology of Muscle Receptors

By
DAVID BARKER, Durham (England)
With 214 Figures

Contents

I. Introduction	2
II. The Muscle Spindle	2
A. The Mammalian Muscle Spindle	6
1. The Capsule, Axial Sheath, and Periaxial Space	9
2. The Intrafusal Muscle Fibres	17
a) Recognition of Two Types	17
b) Are there more than Two Types?	18
c) Ultrastructure of Intrafusal Muscle Fibres	27
d) Conclusions	37
3. The Sensory Innervation	38
a) The Primary Ending	38
b) The Secondary Ending	45
c) Free Endings	50
4. The Motor Innervation	50
a) Diameters of Fusimotor Fibres Close to the Spindle	52
b) The β Innervation	53
c) The γ Innervation: p_2 Plates	56
d) The γ Innervation: Trail Endings	63
e) Types of Motor Innervation Received by Spindle Poles	71
f) Identity of Static and Dynamic Fusimotor Fibres	71
5. The Sympathetic Innervation	76
6. Tandem Spindles	78
7. Spindles in Extraocular Muscles	79
8. Number and Distribution	84
9. Development	89
B. Muscle Spindles in Other Vertebrates	96
1. The Amphibian Muscle Spindle	96
2. The Reptilian Muscle Spindle	105
3. The Avian Muscle Spindle	119
III. The Tendon Organ	124
IV. Other Vertebrate Muscle Receptors	133
A. Agnatha	133
B. Fishes	134
C. Amphibia	134
D. Reptiles and Birds	139
E. Mammals	140
1. Free Endings	140
2. Pacinian and Paciniform Corpuscles	144
3. Golgi Endings	146
4. Ruffini Endings	148

5. Eye Muscle Endings	150
a) Palisade Endings	150
b) Sensory Endings on Extrafusal Muscle Fibres	152
c) Endings in Intramuscular Connective Tissue and Tendon	154
V. The Composition of Mammalian Muscle Nerves	155
A. Analysis of Separate Components	156
1. Methods of Study	156
2. The Motor Component	159
3. The Sensory Component	168
4. The Sympathetic Component	173
References	174
