

CONTENTS

I.	INTRODUCTION	1
II.	ITERATIVE METHODS IN REAL HILBERT SPACES	8
II.1	Introduction.	8
II.2	Bounded, Positive Bounded Below, and Self-adjoint Operators	10
II.3	Other Types of Operators.	23
III.	ITERATIVE METHODS IN COMPLEX HILBERT SPACES.	31
III.1	Introduction.	31
III.2	Bialy's Methods	33
III.3	Two Methods of Petryshyn.	42
III.4	The Extension of Some Algebraic Methods	54
IV.	SUCCESSIVE APPROXIMATION METHODS	74
IV.1	Introduction.	74
IV.2	A Theorem of Browder and Petryshyn.	88
IV.3	A Fixed Point Theorem	99
IV.4	A Theorem of de Figueiredo and Karlovitz.	110
V.	GRADIENT METHODS	118
V.1	Introduction.	118
V.2	The Method of Steepest Descent.	127
V.3	The Conjugate Gradient Method	150
	BIBLIOGRAPHY	171
