

Table of Contents

Inter-dependency Assessment in the ICT-PS Network: The MIA Project Results	1
<i>Emiliano Casalicchio, Sandro Bologna, Luigi Brasca, Stefano Buschi, Emanuele Ciapessoni, Gregorio D'Agostino, Vincenzo Fioriti, and Federico Morabito</i>	
A Quantitative Risk Analysis Approach for Deliberate Threats	13
<i>Nikos Vavoulas and Christos Xenakis</i>	
The EU FP6 Integrated Project IRRIS on Dependent Critical Infrastructures: Summary and Conclusions	26
<i>Rüdiger Klein</i>	
Towards Understanding Recurring Large Scale Power Outages: An Endogenous View of Inter-organizational Effects	43
<i>Finn Olav Sveen, Josune Hernantes, Jose J. Gonzalez, and Eliot Rich</i>	
Early Warning System for Cascading Effect Control in Energy Control Systems	55
<i>Cristina Alcaraz, Angel Balastegui, and Javier Lopez</i>	
Emergency Response with Proactive Crowd-Sourcing Reverse-111	67
<i>Anu Vaidyanathan</i>	
Anonymity and Privacy in Distributed Early Warning Systems	81
<i>Martin Brunner, Hans Hofinger, Christopher Roblee, Peter Schoo, and Sascha Todt</i>	
A Formal Adversary Capability Model for SCADA Environments	93
<i>Thomas Richard McEvoy and Stephen D. Wolthusen</i>	
A Cloud Provider-Agnostic Secure Storage Protocol	104
<i>Nikos Virvilis, Stelios Dritsas, and Dimitris Gritzalis</i>	
State-Based Firewall for Industrial Protocols with Critical-State Prediction Monitor	116
<i>Igor Nai Fovino, Andrea Carcano, Alessio Coletta, Michele Guglielmi, Marcelo Masera and Alberto Trombetta</i>	
A Formally Verified Mechanism for Countering SPIT	128
<i>Yannis Soupionis, Stylianos Basagiannis, Panagiotis Katsaros, and Dimitris Gritzalis</i>	

Trust and Reputation for Information Exchange in Critical Infrastructures	140
<i>Filipe Caldeira, Edmundo Monteiro, and Paulo Simões</i>	
A Modelling Approach for Interdependency in Digital Systems-of-Systems Security - Extended Abstract	153
<i>Adedayo Adetoye, Sadie Creese, Michael Goldsmith, and Paul Hopkins</i>	
Risk Ontology and Service Quality Descriptor Shared among Interdependent Critical Infrastructures	157
<i>Matthieu Aubigny, Carlo Harpes, and Marco Castrucci</i>	
Author Index	161
