

CONTENTS

1. Preliminaries	1
2. Semi-perfect rings	5
3. Morita duality	22
4. Left QF-3 rings	40
5. The structure of QF-3 rings	53
6. Are noetherian, left QF-3 rings artinian, so QF-3?	72
7. Dominant dimension	91
8. Conjectures arising from Nakayama's conjecture	105
9. QF-3 rings and rings of finite representation type	120
10. The double centralizer condition	131
11. QF-3 rings	144
12. QF-3 rings and categories of projective modules	155
