Foreword — V

List of authors — XI

Khushboo Sharma, Naveen Sharma and Harshita Sachdeva

**1 Occurrence, catalytic applications, and environmental impact of yttrium — 1**

Mohit Maingle, Steeva Sunny, Kate Ashru Ajinath, Amrutha Cica Tomy, Wagh Kanchan Madanrao, Pathlavath Teja Sree and Kapileswar Seth

**2 Half-sandwich organo-group-3 metal-catalyzed C–C bond formation via  $sp^2$  C–H bond functionalization — 13**

K. Ganesh Kadiyala, Vanipenta Yamini, Kommuru Goutham and Naresh Kumar Katari

**3 Rare earth metal-catalyzed multicomponent reactions — 45**

Sabbasani Rajasekhara Reddy and Paranimuthu Panjacharam

**4 Synthesis and catalytic activity of light rare earth *N*-heterocyclic carbene (NHC) complexes — 59**

Yadavalli Venkata Durga Nageswar, Katla Ramesh and Katla Rakhi

**5 Lanthanum triflate–assisted organic transformations: a decade update — 77**

Debasree Saha and Chhanda Mukhopadhyay

**6 Current advances in the application of actinide complexes for useful organic transformations — 103**

Asish Kumar Dey and Sasadhar Majhi

**7 Role of samarium in organic synthesis — 119**

Kantharaju Kamanna and Yamanappagouda Amaregouda

**8 Role of erbium-based compounds in organic transformations — 141**

Bubun Banerjee, Anu Priya, Aditi Sharma, Manmeet Kaur and Arvind Singh

**9 Gadolinium triflate-catalyzed various organic transformations — 175**

Puja Basak and Pranab Ghosh

**10 Scandium(III) and lanthanum(III) trifluoromethanesulfonate-catalyzed organic synthesis — 193**

Gyan Chandra Pariyar, Bijeta Mitra, Suvodip Mukherjee  
and Pranab Ghosh

**11 Cerium (IV) ammonium nitrate (CAN)-catalyzed selective synthesis of *O*- and *S*-heterocycles — 211**

K Ganesh Kadiyala, Vanipenta Yamini, Kommuru Goutham and Naresh Kumar  
Katari

**12 Photocatalysis of rare earth complexes in organic synthesis — 225**

Hosam M. Saleh and Amal I. Hassan

**13 Innovative techniques utilized for bioremediation of rare earth elements to attain a sustainable world — 241**

Mausumi Ganguly and Sangeeta Agarwal

**14 Recent advances in the biomedical applications of rare earth elements — 259**

Manish Taunk

**15 Recovery of rare earth elements from electronic waste — 289**

**Index — 303**
