

TABLE OF CONTENTS

Chapter I.

Fourier transform and the nilmanifold $\Gamma \backslash \mathbb{N}$	1
--	---

Chapter II.

Functions on $\Gamma \backslash \mathbb{N}$ and theta functions.	15
--	----

Chapter III.

Elementary transformation theory.	30
---	----

Appendix to Chapter III.

Cohomology and theta functions.	40
---	----

Chapter IV.

Theta functions and distinguished subspaces	44
---	----

Appendix B.

The arithmetic of distinguished subspaces	68
---	----

<u>References.</u>	74
------------------------------	----

Appendix C.

Fourier analysis on the Heisenberg manifold	75
---	----

<u>References for Appendix C.</u>	99
---	----
