

TABLE OF CONTENTS

Chapter 1.	Preliminaries	1
1.1	Modules.....	1
1.2	Homology and Cohomology with Twisted Coefficients.....	2
1.3	Δ -Sets.....	4
1.4	Microbundles, Block Bundles and Spherical Fibrations.....	7
1.5	The Immersion Classification Theorem.....	11
1.6	Intersection Numbers.....	14
1.7	Algebraic K-Theory.....	19
1.8	Localization.....	23
Chapter 2.	Whitehead Torsion	28
Chapter 3.	Poincare Complexes	39
3.1	Poincare Duality.....	39
3.2	Spherical Fibrations and Normal Maps.....	45
Chapter 4	Surgery with Coefficients	54
4.1	Surgery.....	54
4.2	The Problem of Surgery with Coefficients.....	57
4.3	Surgery Obstruction Groups.....	60
4.4	The Simply Connected Case.....	74
4.5	The Exact Sequence of Surgery.....	80
Chapter 5.	Relative Surgery	82
5.1	Handle Subtraction and Applications.....	82
5.2	Geometric Definition of Surgery Groups.....	85
5.3	Classifying Spaces for Surgery.....	94
5.4	The Periodicity Theorem, Part I.....	96
Chapter 6.	Relations Between Surgery Theories	101
6.1	The Long Exact Sequence of Surgery with Coefficients.....	101
6.2	The Rothenberg Sequence.....	105
6.3	The Periodicity Theorem, Part II.....	109
6.4	Simple Linking Numbers.....	110
Appendix A.	Torsion for n-ads	122
Appendix B.	Higher L-Theories	124
Appendix C.	L Groups of Free Abelian Groups	127
Appendix D.	Ambient Surgery and Surgery Leaving a Submanifold Fixed	129

Appendix E: Homotopy and Homology Spheres.....	135
References.....	138
Symbol Index.....	154
Index.....	156
