

C O N T E N T S

Introduction	v
Chapter 0: Preliminaries	1
Chapter 1: L^p -Projections	5
Chapter 2: The Cunningham p -Algebra	16
Chapter 3: The Integral Module Representation	23
Chapter 4: The Classical L^p -Spaces	47
Chapter 5: Integral Modules and Duality	60
Chapter 6: Spectral Theory for L^p -Operators	73
Chapter 7: The L^p -Structure of the Bochner Spaces and Related Results	83
Appendix 1: The Commutativity of L^p -Projections	94
Appendix 2: L^∞ -Summands in CK-Spaces	97
Appendix 3: A Measure-Theoretical Approach to Integral Modules	99
Notation Index	101
Subject Index	104
References	106
