

Content

List of contributors	IV
Preface	
S. HEJNÝ	VI
I. Problems of eutrophication and its estimation	
Problems of eutrophication, its impact, development and models of eutrophication	
M. STRÁŠKRABA	1 - 10
The practical consequences of eutrophication from the aspect of water management, hygiene and fishery	
M. STĚPÁNEK	11 - 16
Algal assays - an introduction into the problem	
P. MARVAN	17 - 22
II. Theoretical principles of algal tests	
Cell growth and division of unicellular algae and Cyanophyceae	
I. SETLÍK	23 - 40
Radiation energy, temperature and algal growth	
J. SIMMER	41 - 45
Factors limiting the growth of algal cultures	
P. MARVAN and S. PRIBIL	47 - 56
Synchronous cultures	
J. DOUCHA and J. SIMMER	57 - 68
Cytological aspects of algal assays	
J. SULEK	69 - 76
Methods for algal growth evaluation	
J. LUKAVSKÝ, J. SIMMER and Š. KUBÍN	77 - 85
III. Selection of organisms and their precultivation	
Selection and registration of strains of algae as assay organisms	
J. KOMÁREK and P. MARVAN	87 - 102
Review of algal assay strains	
J. KOMÁREK and O. LHOTSKÝ	103 - 118
Bioassays using a natural phytoplankton assemblage	
P. JAVORNICKÝ	119 - 130

Macrophytes used in bioassays	
D. DYKJOVÁ	131 - 135
Algal cultures from the point of view of population genetics	
J. LUKAVSKÝ	137 - 139
Genetic variability and the resulting nonhomogeneity in algal populations	
J. NEČAS	141 - 152

IV. Cultivation techniques

The technique of microcultivation of algae	
V. BREZINA	153 - 161
Cultivation on solid media	
J. LUKAVSKÝ	163 - 174
Batch cultivation	
S. PRIBIL and P. MARVAN	175 - 180
Continuous cultures of algae	
J. DOUCHA	181 - 191
In situ tests using phytoplankton	
J. KOMÁRKOVÁ	193 - 204
Periphyton assays in situ	
A. SLÁDEČKOVÁ	205 - 209

V. Application of the tests to water management

Biological assay and eutrophication	
D. MATULOVÁ	211 - 221
Determination of the trophic potential - application in hydrobiological practice	
Z. ŽÁKOVÁ	223 - 233
Algal tests and the ratio of saprobic versus trophic levels	
V. SLÁDEČEK	235 - 237

VI. Bibliography

Selected bibliography on the methodology of algal assays	
O. LHOTSKÝ	239 - 253
