Keynote Talk

Assuring Software Reliability While Using Web Services and Commercial Products.....	1
<i>Jeffrey O'Leary</i>	

Multicore

Detecting High-Level Synchronization Errors in Parallel Programs	17
<i>Syed Aoun Raza, Stefan Franke, and Erhard Ploedereder</i>	
Design and Implementation of a Ravenscar Extension for Multiprocessors	31
<i>Fabien Chouteau and José F. Ruiz</i>	
A Real-Time Framework for Multiprocessor Platforms Using Ada 2012	46
<i>Sergio Sáez, Silvia Terrasa, and Alfons Crespo</i>	

Verification

The SQALE Quality and Analysis Models for Assessing the Quality of Ada Source Code	61
<i>Thierry Coq and Jean-Pierre Rosen</i>	
Adapting ACATS to the Ahven Testing Framework	75
<i>Dan Eilers and Tero Koskinen</i>	
Model-Based Analysis and Design of Real-Time Distributed Systems with Ada and the UML Profile for MARTE	89
<i>Julio L. Medina and Alvaro Garcia Cuesta</i>	

Architecture and Modelling

Developing Dependable Software-Intensive Systems: AADL vs. EAST-ADL.....	103
<i>Andreas Johnsen and Kristina Lundqvist</i>	
A Formal Approach to Design and Verification of Two-Level Hierarchical Scheduling Systems	118
<i>Laura Carnevali, Giuseppe Lipari, Alessandro Pinzuti, and Enrico Vicario</i>	

Architecting a Common Bridge Abstraction over Different Middleware Paradigms	132
<i>Iago Rodríguez-López and Marisol García-Valls</i>	

Education and Mixed Criticality

Using Robotics as a Motivational Tool: An Ada Interface to a Pioneer Robot	147
<i>Rigoberto Chil, Diego Alonso, Francisco Ortiz, and Juan Pastor</i>	
ORK+/XtratuM: An Open Partitioning Platform for Ada	160
<i>Ángel Esquinas, Juan Zamorano, Juan A. de la Puente, Miguel Masmano, Ismael Ripoll, and Alfons Crespo</i>	
Implementing Mixed Criticality Systems in Ada	174
<i>Sanjoy Baruah and Alan Burns</i>	

Panel: Language Paradigms for Multicore Programming

Programming Languages Meet Multicore	189
<i>Erhard Ploedereder</i>	
Programming Languages for Real-Time Applications Executing on Parallel Hardware	193
<i>Alan Burns</i>	
Multicore Programming in ParaSail: Parallel Specification and Implementation Language	196
<i>S. Tucker Taft</i>	
Why Parallel Functional Programming Matters: Panel Statement	201
<i>Kevin Hammond</i>	

Panel: DO178C and Object-Orientation for Critical Systems

OOT, DO-178C and SPARK	206
<i>Roderick Chapman and Trevor Jennings</i>	
Position Paper: DO-178C/ED-12C and Object-Orientation for Critical Systems	211
<i>Dewi Daniels</i>	
Object Orientation in Critical Systems: Yes, in Moderation – Position Paper for the DO178C and Object-Orientation for Critical Systems Panel	214
<i>Jean-Pierre Rosen</i>	

Signet Library Talk

On the Evolution of Unnatural Language	219
<i>Les Hatton</i>	

Author Index	227
