

Table of Contents

Invited Contributions

Model Checking Cell Fate Decisions	1
<i>Jasmin Fisher</i>	

Abstractions and State-Space Reductions

Property-Dependent Reductions for the Modal Mu-Calculus	2
<i>Radu Mateescu and Anton Wijs</i>	
String Abstractions for String Verification	20
<i>Fang Yu, Tevfik Bultan, and Ben Hardekopf</i>	
Parallel Recursive State Compression for Free	38
<i>Alfons Laarman, Jaco van de Pol, and Michael Weber</i>	

Search Strategies

Depth Bounded Explicit-State Model Checking	57
<i>Abhishek Udupa, Ankush Desai, and Sriram Rajamani</i>	
Randomized Backtracking in State Space Traversal	75
<i>Pavel Parízek and Ondřej Lhoták</i>	

PROMELA Encodings and Extensions

An Analytic Evaluation of SystemC Encodings in Promela	90
<i>Daniele Campana, Alessandro Cimatti, Iman Narasamdya, and Marco Roveri</i>	
Building Extensible Specifications and Implementations of Promela with AbleP	108
<i>Yogesh Mali and Eric Van Wyk</i>	

Applications of Model Checking

Program Sketching via CTL* Model Checking	126
<i>Andreas Morgenstern and Klaus Schneider</i>	
A Verification-Based Approach to Memory Fence Insertion in Relaxed Memory Systems	144
<i>Alexander Linden and Pierre Wolper</i>	

Model Checking Industrial Robot Systems	161
<i>Markus Weißmann, Stefan Bedenk, Christian Buckl, and Alois Knoll</i>	

Tool Demonstrations

EpiSpin: An Eclipse Plug-In for Promela/Spin Using Spoofax	177
<i>Bob de Vos, Lennart C.L. Kats, and Cornelis Pronk</i>	

DiPro - A Tool for Probabilistic Counterexample Generation	183
<i>Husain Aljazzar, Florian Leitner-Fischer, Stefan Leue, and Dimitar Simeonov</i>	

dBug: Systematic Testing of Unmodified Distributed and Multi-threaded Systems	188
<i>Jiří Šimša, Randy Bryant, and Garth Gibson</i>
