

CONTENTS

Parameter Dependence of Solutions of Classes of Quasilinear Elliptic and Parabolic Differential Equations, <u>M.F. Barnsley</u> .	1
Some Applications of the Method of Super and Subsolutions, <u>H. Berestycki</u> and <u>P.L. Lions</u> .	16
Multiple Solutions of a Bifurcation Problem, <u>C. Bolley</u> .	42
On non linear eigenvalue problems which extend into free boundary problems, <u>C.M. Brauner</u> and <u>B. Nicolaenko</u> .	61
Introduction aux Théories statistiques de la Turbulence pleinement développée, <u>M. Lesieur</u> and <u>J.P. Chollet</u> .	101
Experimental Study of the Mechanism of a new hydrodynamical Instability observed at some Interfaces between immiscible Liquids, <u>M. Dupeyrat</u> .	122
Remarques sur un Problème de Valeurs Propres non linéaires faisant intervenir des Fonctions non différentiables, <u>C. Guillopé</u> .	130
Solar Flares: a non linear eigenvalue Problem in an unbounded Domain, <u>J. Heyvaerts</u> , <u>J.M. Lasry</u> , <u>M. Schatzman</u> , and <u>P. Witomski</u> .	160
Bifurcation of invariant Tori in $\mathbb{R}^3$, <u>G. Iooss</u> .	192
Pattern Formation and Wave Propagation in the s-a System, <u>J.P. Kernevez</u> , <u>G. Joly</u> , <u>D. Thomas</u> and <u>B. Bunow</u> .	201
Variation d'un point de Retournement par rapport au Domaine, <u>F. Mignot</u> , <u>F. Murat</u> et <u>J.P. Puel</u> .	222
Dynamic Padé Approximants and Behavior Singularities in non linear Physico-chemical Systems, <u>P. Ortoleva</u> .	255
Remarks on a non linear Equation arising in Population Genetics, <u>J.C.Saut</u> .	265
Triplets de Solutions d'une Equation aux Dérivées partielles elliptique non linéaire, <u>D. Serre</u> .	283
