Introduction.	1
Chapter 1. Sections of functors.	6
(1.1) Derivation functors associated to a functor.	6
(1.2) Obstructions for the existence of sections of functors.	10
(1.3) Resolving functors for \varprojlim .	13
Chapter 2. Lifting algebras and morphisms of algebras.	17
(2.1) Leray spectral sequences for \varprojlim .	18
(2.2) Lifting of algebras.	25
(2.3) Obstructions for lifting morphisms of algebras.	40
Chapter 3. Global cohomology.	48
(3.1) Definitions and some spectral sequences.	48
(3.2) Algebra cohomology of schemes and morphisms of schemes.	54
(3.3) Long exact sequence associated to a morphism of S-schemes.	65
Chapter 4. Global obstruction theory and formal moduli.	78
(4.1) Global obstruction theory.	78
(4.2) Formal moduli.	92
(4.3) The obstruction morphism and Massey products.	118
Chapter 5. Some applications.	125
(5.1) Local structure of some moduli-schemes.	125
(5.2) Formal moduli of k-schemes and local structure of the Hilbert scheme.	139
(5.3) Local k-algebras, cohomology and Massey products.	147
Appendix.	152
Bibliography.	156
Index.	158
Index of notations.	160
