CONTENTS

Volume III. Manganese on the bottom of Recent basins

<i>Cronan, D. S.:</i> Introduction	7
------------------------------------	---

General aspects

<i>Wedepohl, K. H.:</i> Potential sources for manganese oxide precipitation in the oceans	13
<i>Nadiradze, V. R.:</i> On a source of metals of iron-manganese concretions in the Earth's Recent basins	23
<i>Lalou, C., Brichet, E. and Bonte, P.:</i> Some new data on the genesis of manganese nodules	31
<i>Varentsov, I. M., Dikov, Yu. P. and Bakova, N. V.:</i> On the study of Fe-Mn ore formation in Recent basins: experiments on the synthesis of Mn, Fe, Ni, Co hydroxide phases on iron hydroxides (γ -FeOOH)	91

Recent basins

Pacific Ocean

<i>Andrews, J. E. and Friedrich, G. H. W.:</i> Distribution patterns of manganese nodule deposits in the North-East Equatorial Pacific	107
<i>Glasby, G. P., Meylan, M. A., Margolis, S. V. and Bäcker, H.:</i> Manganese deposits of the Southwestern Pacific Basin	137

Indian Ocean

<i>Frakes, L. A. and O'Brien, G.:</i> Nickel-rich nodules in the Southeastern Indian Ocean	185
--	-----

Atlantic Ocean

<i>Rona, P. A.:</i> Hydrothermal manganese deposits of Mid-Atlantic Ridge Crest (latitude 26° N)	195
--	-----

Shallow water basins

<i>Makedonov, A. V.:</i> Regularities of distribution and formation of ferromanganese concretions in Recent basins and soils	211
<i>Winterhalter, B.:</i> Ferromanganese concretions in the Baltic Sea	227

<i>Dean, W. E. and Ghosh, S. K.: Geochemistry of freshwater ferromanganese deposits in North America</i>	255
<i>Microbiological aspects</i>	
<i>Schweisfurth, R., Jung, W. and Gundlach, H.: Manganese-oxidizing microorganisms and their importance for the genesis of manganese ore deposits</i>	279
<i>Crerar, D. A., Fischer, A. G. and Plaza, C. L.: Metallogenium and biogenic deposition of manganese from Precambrian to Recent time</i>	285
<i>Dubinina, G. A.: The role of microorganisms in the formation of the Recent iron-manganese lacustrine ores</i>	305
<i>Mining aspects</i>	
<i>Lenoble, J. P.: Technical problems of ocean mining evaluation</i>	327
Subject index	343
Contents to Volume I	351
Contents to Volume II	353
