

TABLE OF CONTENTS

KEITH J. DEVLIN

Morass-like constructions of \aleph_2 -trees in L	1
---	---

HANS-DIETER DONDER

Coarse morasses in L	37
------------------------	----

H.D. DONDER, R.B. JENSEN, B. KOPPELBERG

Some applications of the core model	55
-------------------------------------	----

SABINE KOPPELBERG

A lattice structure on the isomorphism types of complete boolean algebras	98
---	----

ALEXANDER PRESTEL

Pseudo real closed fields	127
---------------------------	-----

TASSILO VON DER TWER

Some remarks on the mathematical incompleteness of Peano's arithmetic found by Paris and Harrington	157
---	-----
