PART 1 ANALYTICAL METHODS AND EVOLUTION EQUATIONS

T.TANIUTI: Recent developments of the reductive perturbation method	3
S.K.GODUNOV, A.M.BLOKHIN: Energy integrals in the theory of shock wave stability	18
L.A.OSTROVSKY: Solitons in active media	30
J.ENGELBRECHT: The evolution equations in the theory of nonlinear waves	44
A.DONATO, D.FUSCO: An approach to constrained thermo-elastic solids: internal constraint responses and wave propagation	63
V.M.BABIĆ, I.A.MOLOTKOV, S.A.VAKULENKO: Asymptotic approach to some nonlinear wave problems	76
F.MAINARDI, H.BUGGISCH: On non-linear waves in liquid-filled elastic tubes	87
H.W.BUGGISCH: Nonlinear waves in gas-filled elastic tubes	101
D.G.CRUGHTON: Propagation of non-uniform shock waves over large distances	115
T.R.AKYLAS: The propagation of finite-amplitude edge waves	131
H.COHEN, M.EPSTEIN: Iterated compatibility relations and nonlinear wave propagation	137
E.N.PELINOVSKIJ, V.E.FRIDMAN: Equations of nonlinear geometrical acoustics	143
V.P.KOROBENIKOV: Some exact solutions of Korteweg-de Vries-Burgers equation for plane, cylindrical and spherical waves	149

PART 2 WAVES IN HEREDITARY AND PLASTIC MEDIA

YU.N.RABOTNOV, YU.V.SUVOROVA, A.YE.OSOKIN: Deformation waves in nonlinear hereditary media	157
A.G.UGODCHIKOV: The analysis of the strain wave processes and fracture of the structural elastic-viscoplastic elements	171
G.I.BARENBLATT: Nonlinear inelastic deformation waves in polymers and metals	185
V.F.NESTERENKO, V.M.FOMIN, P.A.CHESKIDOV: Attenuation of strong shock waves in laminate materials	191
W.FRYDRYCHOWICZ, M.C.SINGH: Application of a multi-parameter group of transformations to an impact problem of a non-linear viscoelastic rod	198
N.SUGIMOTO, Y.YAMANE, T.KAKUTANI: Shock wave propagation in a viscoelastic rod	203
L.NILSSON, M.OLDENBURG: Nonlinear wave propagation in plastic fracturing materials - A constitutive modelling and finite element analysis	209
M.MALATYNSKI, W.K.NOWACKI: Adiabatic elastic/viscoplastic plane waves in a rod at finite strain	218
V.K.RYMSKY: Dynamics of two-dimensional thermoviscoelastic waves in laminated media	224
L.SEAMAN, J.D.DEIN: Representing shear band damage at high strain rates	229

PART 3 INVERSE PROBLEMS

K.KAWATA: Detection of deformation waves in solids	237
U.NIGUL: Asymptotic analyses of the pulse shape evolution and of the inverse problem of acoustic evaluation in case of the nonlinear hereditary medium	255
A.BALTOV, I.NICOLOVA: Parameter identification of mechanical-mathematical models using the data obtained by following an experimental wave method	273
N.G.OHLSON: On the use of ultrasonic velocity measurements for the study of stress waves in solids	281
J.BUCHAR, Z.BÍLEK, Z.KNĚSL: Numerical analysis of Hopkinson split pressure bar test	287
A.G.KULIKOVSKIY, E.I.SWESHNIKOVA: Nonlinear deformation waves in the previously stressed elastic media	293

PART 4 NONLINEAR ACOUSTICS

D.T.BLACKSTOCK: Spectral interactions in nonlinear acoustics - A review	301
L.M.LIAMSHEV, K.A.NAUGOLNYKH, S.A.RYBAK : Asymptotic description of nonlinear interaction of surface and bulk waves	316
M.A.BREAZEALE: Experimental determination of the non-linear properties of elastic solids	332
V.V.BOLOTIN, E.V.LOBANOV: Acoustic emission and damage accumulation in solids	349
L.BJØRNØ, K.BLACK: Higher-order acoustic nonlinearity parameters of fluids	355

PART 5 COMBINED FIELDS AND APPLICATIONS

A.N.GUZ, A.P.ZHUK: On non-linear interaction of solid particles with a sound wave in viscous liquid	365
M.BRAUN: Wave propagation in elastic membranes	379
D.MAKOVICKA: Non-linear behaviour of soils under dynamic loading	385
A.A.GVOZDEV, M.A.GRINFELD, N.V.ZVOLINSKI: Nonlinear effects, accompanying seismic waves propagation	391
D.F.PARKER, F.M.TALBOT: Nonlinear elastic surface waves	397
I.T.SELEZOV: About influence of nonlinear magnetoelastic effects on wave propagation in an elastic electroconducting medium	404
G.A.MAUGIN, J.POUGET: Nonlinear elastic waves generated by electric solitons in ferroelectric crystals	410
A.SZEKERES: Deformation and thermal wave in a long rod caused by thermal shock, taking into account large temperature differences and the modified law of heat conduction	418
TS.P.IVANOV: Acceleration waves in nonlinear generalized thermoelasticity	425
R.GRIMSHAW: Solitary waves in density stratified fluids	431
V.V.MARKOV: On propagation of waves containing discontinuities	448
Workshop on applications in nonlinear wave propagation	451
The list of unpublished reports	453
