Keynote

Towards a Compiler for Business-IT Systems: A Vision Statement Complemented with a Research Agenda	1
<i>Jana Koehler, Thomas Gschwind, Jochen Küster, Hagen Völzer, and Olaf Zimmermann</i>	

Requirements Specification

Towards Use-Cases Benchmark	20
<i>Bartosz Alchimowicz, Jakub Jurkiewicz, Jerzy Nawrocki, and Mirosław Ochodek</i>	
Automated Generation of Implementation from Textual System Requirements	34
<i>Jan Franců and Petr Hnětynka</i>	
Enhancing Use Cases with Screen Designs	48
<i>Lukasz Olek, Jerzy Nawrocki, and Mirosław Ochodek</i>	

Design

Mining Design Patterns from Existing Projects Using Static and Run-Time Analysis	62
<i>Michal Dobiš and L'ubomír Majtás</i>	
Transformational Design of Business Processes for SOA	76
<i>Andrzej Ratkowski and Andrzej Zalewski</i>	
Service-Based Realization of Business Processes Driven by Control-Flow Patterns	91
<i>Petr Weiss</i>	

Modeling

SMA—The Smyle Modeling Approach	103
<i>Benedikt Bollig, Joost-Pieter Katoen, Carsten Kern, and Martin Leucker</i>	

Open Work of Two-Hemisphere Model Transformation Definition into UML Class Diagram in the Context of MDA	118
<i>Oksana Nikiforova and Natalja Pavlova</i>	
HTCPNs-Based Tool for Web-Server Clusters Development	131
<i>Slawomir Samolej and Tomasz Szmuc</i>	

Software Product Lines

Software Product Line Adoption – Guidelines from a Case Study	143
<i>Pasi Kuvaja, Jouni Similä, and Hanna Hanhela</i>	
Refactoring the Documentation of Software Product Lines	158
<i>Konstantin Romanovsky, Dmitry Koznov, and Leonid Minchin</i>	

Code Generation

Code Generation for a Bi-dimensional Composition Mechanism	171
<i>Jacky Estublier, Anca Daniela Ionita, and Tam Nguyen</i>	
Advanced Data Organization for Java-Powered Mobile Devices	186
<i>Tomáš Tureček and Petr Šaloun</i>	
Developing Applications with Aspect-Oriented Change Realization	192
<i>Valentino Vranić, Michal Bebjak, Radoslav Menkyna, and Peter Dolog</i>	

Project Management

Assessing the Quality of Quality Gate Reference Processes	207
<i>Thomas Flohr</i>	
Exploratory Comparison of Expert and Novice Pair Programmers	218
<i>Andreas Höfer</i>	
State of the Practice in Software Effort Estimation: A Survey and Literature Review	232
<i>Adam Trendowicz, Jürgen Münch, and Ross Jeffery</i>	

Quality

Testing of Heuristic Methods: A Case Study of Greedy Algorithm	246
<i>A.C. Barus, T.Y. Chen, D. Grant, Fei-Ching Kuo, and M.F. Lau</i>	

A Framework for Defect Prediction in Specific Software Project Contexts	261
<i>Dindin Wahyudin, Rudolf Ramler, and Stefan Biffel</i>	
Meeting Organisational Needs and Quality Assurance through Balancing Agile and Formal Usability Testing Results	275
<i>Jeff Winter, Kari Rönkkö, Mårten Ahlberg, and Jo Hotchkiss</i>	
Author Index	291
