

Table of contents

I.	Abbreviations and acronyms	I
II.	List of figures.....	V
III.	List of tables	VI
1	Introduction	1
1.1	<i>P. graminis</i> as cereal-root parasite and viral vector	1
1.1.1	Furoviruses causing yellowing disease in cereal crops.....	2
1.1.2	Plant resistance against Furoviruses.....	4
1.2	Virus-host-plant interactions.....	6
1.2.1	Viral proteins as targets of posttranslational modification	7
1.2.2	Eukaryotic translation factors required for viral life cycle	8
1.2.3	Chaperone, proteasome, and autophagy network in viral infection.....	9
1.2.4	Plant RNA silencing: antiviral defense and viral counterdefense	10
1.2.5	Plant phytohormones as factors promoting or inhibiting viral infection.....	11
1.2.6	Plant cell organelles influenced by viral infection.....	12
1.2.7	Interaction between viruses and the actin and microtubule cytoskeleton	13
1.2.8	Viruses accomplish movement through plasmodesmata	14
1.2.9	Conclusion virus-plant interactions	16
1.3	Aim: exploring JSBWMV-infection in the model plant <i>N. benthamiana</i>	17
2	Characterization of the JSBWMV MP as a viral movement protein.....	19
2.1	Introduction	19
2.2	Results.....	20
2.2.1	Localization of MP ^{JSBWMV} upon ectopic expression in <i>N. benthamiana</i>	20
2.2.2	Localization of ectopically expressed MP ^{JSBWMV} in viral infection-sites.....	23
2.2.3	Co-IP experiments reveal an oligomerization of MP ^{JSBWMV}	25
2.2.4	Confirmation of the self-interaction of MP ^{JSBWMV} by FRET-FLIM.....	27
2.2.5	Identification of RNAs binding to the MP ^{JSBWMV}	29
2.2.6	Identification of host-plant proteins interacting with MP ^{JSBWMV}	32
2.3	Discussion.....	34
2.3.1	MP ^{JSBWMV} :FP is functional in viral context	34
2.3.2	Furoviral MPs exhibit plasmodesmata localization	35
2.3.3	Furoviral MP binds preferentially to RNAs with specific functions	37
2.3.4	Host proteins interacting with furoviral MPs – steps towards understanding MP function	39
3	Investigation of a <i>N. benthamiana</i> PPR-protein interacting with MP ^{JSBWMV}	41
3.1	Introduction	41
3.2	Results.....	42
3.2.1	Allocation of the PPR-protein into the PPR-subclasses	42

3.2.2	Localization of ectopically expressed PPR-protein in <i>N. benthamiana</i>	43
3.2.3	Bioinformatic analysis of the PPR-sequence regarding targeting-motifs.....	46
3.2.4	Identification of RNAs associated with the PPR-protein.....	47
3.2.5	Verification of the interaction between PPR-protein and MP ^{JSBWMV} in FRET-FLIM experiments.....	51
3.2.6	Confirmation of the interaction between the PPR-protein and MP ^{JSBWMV} in Co-IP experiments.....	53
3.2.7	Analysis of PPR gene-expression upon ectopic expression of MP ^{JSBWMV} and infection with JSBWMV Bornum-isolate.....	55
3.2.8	Functional analysis of ectopically expressed PPR-protein in the context of virus infection	57
3.3	Discussion.....	60
3.3.1	The role of PPR-proteins in plant RNA-metabolism.....	60
3.3.2	Functions of chloroplast-localized P-type PPR-proteins	61
3.3.3	Functions of PPR-proteins in non-organellar localization.....	62
3.3.4	Role of chloroplasts in viral infection	63
3.3.5	A role of PPR-protein during infection of JSBWMV	64
4	<i>N. benthamiana</i> HSP70-protein – a new interaction partner of the MP ^{JSBWMV}	67
4.1	Introduction	67
4.2	Results	68
4.2.1	Localization of ectopically expressed HSP70 in <i>N. benthamiana</i>	68
4.2.2	Localization of ectopically expressed HSP70 in viral infection-sites.....	72
4.2.3	Verification of the interaction between HSP70 and MP ^{JSBWMV} in Co-IP.....	74
4.2.4	Investigation of direct interaction between HSP70 and MP ^{JSBWMV} by FRET-FLIM	76
4.2.5	Influence of MP ^{JSBWMV} on gene-expression of HSP70.....	79
4.2.6	Gene-expression of HSP70 upon viral infection	80
4.2.7	Analysis of RNAs binding to HSP70	82
4.3	Discussion.....	84
4.3.1	HSP70 proteins in the plant cell	84
4.3.2	Interaction of HSP70 with viral replicases.....	85
4.3.3	HSP70 in Furovirus infection	86
4.3.4	HSP70 interacts with co-chaperones involved in viral infection	87
4.3.5	RNA-binding capacity of HSP70.....	88
5	General discussion.....	90
5.1	Viral movement proteins.....	90
5.1.1	RNA-transport through plasmodesmata	90
5.2	Agricultural strategies against viral infection.....	91
5.2.1	Possible resistance targets in plant genomes against viral infection.....	92

5.2.2	Importance of JSBWMV MP in virus infection.....	93
5.2.3	The PPR-protein as plant-host target for resistance against JSBWMV.....	94
5.2.4	The HSP70 protein as plant-host target for resistance against JSBWMV.....	95
5.3	Conclusion	96
6	Material and methods.....	97
6.1	Material	97
6.1.1	Plant material and growth conditions.....	97
6.1.2	Virus species.....	97
6.1.3	Bacterial species	97
6.1.4	Plasmids/ vectors.....	98
6.1.5	Oligonucleotide primer	102
6.1.6	Chemicals, enzymes and kits.....	105
6.1.7	Equipment and consumables	105
6.2	Methods	107
6.2.1	Cultivation and storage of bacteria	107
6.2.2	Preparation of electro-competent bacteria.....	108
6.2.3	Transformation of bacteria.....	108
6.2.4	Plasmid-DNA isolation.....	109
6.2.5	DNA/ RNA concentration measurements	109
6.2.6	Agarose-gel electrophoresis.....	109
6.2.7	Sequencing of DNA-products.....	110
6.2.8	GATEWAY-cloning.....	110
6.2.9	Transient transformation of <i>N. benthamiana</i> with agrobacteria.....	113
6.2.10	<i>In-vitro</i> transcription of virus and rub inoculation.....	114
6.2.11	Detection at the CLSM	115
6.2.12	Aniline blue staining	116
6.2.13	FRET-FLIM measurements.....	116
6.2.14	Mechanical infection of plants with viruses	117
6.2.15	Enzyme-linked immuno-sorbent assay (ELISA).....	118
6.2.16	RNA-immunoprecipitation.....	119
6.2.17	Protein Co-immunoprecipitation	122
6.2.18	Protein extraction for western blot	124
6.2.19	Denaturing polyacrylamide-gel electrophoresis (SDS-PAGE).....	125
6.2.20	Western blotting	125
6.2.21	Coomassie staining.....	126
6.2.22	Colloidal coomassie staining	127
6.2.23	RNA-isolation	127
6.2.24	DNAse-digestion	129

6.2.25	cDNA-synthesis.....	129
6.2.26	Quantitative real-time polymerase-chain-reaction (qRT-PCR).....	129
6.2.27	Online tools.....	131
7	Summary.....	135
8	Zusammenfassung.....	136
9	References.....	137
10	Appendix.....	161
10.1	Additional information for chapter 2.....	161
10.2	Additional information for chapter 3.....	163
10.3	Additional information for chapter 4.....	169
10.4	Additional information for chapter 6.....	172
