

CONTENTS

I. PHYSICOCHEMICAL ASPECTS

Paracrystalline Structure of Native Human Fibrinogen R. Gollwitzer, W. Bode, H.-J. Schramm, D. Typke and R. Guckenberger	3
Determination of Fibrin Structures by Light Scattering W. Burchard and M. Müller	11
Particularities of Fibrinogen, Rod-like and Branched Fibrins M. Müller and W. Burchard	29
Temperature Effects on Fibrin(ogen)-Fibrin Solutions P. Wiltzius, W. Känzig, V. Hofmann and P.W. Straub	43
Hydrodynamic Characterization of Plasmin Degradation Products from Human Fibrinogen A.C.M. van der Drift, A. Poppema, F. Haverkate and W. Nieuwenhuizen	47
The Kinetics of Fibrin Formation R.E. Zimmermann	59

II. BIOCHEMICAL ASPECTS

Structure-Function-Evolution Relationship in Fibrinogen A. Henschen, F. Lottspeich, M. Kehl, C. Southan and J. Lucas	67
Artifactual Heterogeneity of Human Fibrinogen Poly- peptide Chains Caused by Carboxymethylation C. Kuyas, A. Haeberli and P.W. Straub	83
Influence of Sialic Acid on the Adult and Fetal Fibrinogen-Fibrin Transition I. Witt, H.H. Seydewitz and V. Dahlacker	91
Fibrin Formation in the Presence of Trypsin B. Hessel, B. Blombäck and S. Söderman	101
Characterisation of Rat Fibrinogen M. Kehl and A. Henschen	109

VIII

Characterisation of Pig Fibrinogen J. Lucas and A. Henschen	115
--	-----

III. ABNORMAL FIBRINOGENS

On Dysfibrinogenemia R. Marx and W. Schramm	123
--	-----

Detection of Fibrinogen Abnormality in Dysfibrinogenemia:
Special Report on Fibrinogen Metz Characterized by an
Amino Acid Substitution located at the Peptide Bond
Cleaved by Thrombin

J. Soria, C. Soria, M. Samama, A. Henschen and C. Southan	129
---	-----

Binding of Citrate to Normal Fibrinogen and to Metz
Fibrinogen

P. Ladure, Y. Ricordel, J. Soria, C. Soria and M. Samama	145
--	-----

The Search for Molecular Defects in Abnormal Fibrinogens
C. Southan, A. Henschen and F. Lottspeich

153

Fibrinogen Bern I: A Hereditary Fibrinogen Variant with
Defective Conformational Stabilization by Calcium Ions
C. Rupp, C. Kuyas, A. Häberli, M. Furlan, B.A. Perret
and E.A. Beck

167

Carbohydrate in Abnormal Fibrinogens

D.A. Lane, A.K. Allen, J. Markwick, E. Thompson and
I. Mackie

183

Observation on a New Variant of Hereditary Dysfibrino-
genemia (Homburg I) with Delayed Fibrin Polymerisation
and without Clinical Abnormality

C. Miyashita, K.-H. Nienhaus, E. Wenzel, M. Köhler and
P. Hellstern

193

IV. FIBRINOPEPTIDE DETERMINATION

FPA-Release in Normal and Abnormal Fibrinogen
W. Schramm and R. Marx

201

Simultaneous Clinical Evaluation of Radioimmunoassays
for Fibrinopeptides and β -Thromboglobulin

D.A. Lane, H. Ireland and S. Wolff	207
------------------------------------	-----

Analysis of Human Fibrinopeptides by High Performance
Liquid Chromatography: Quantitative Determination and
Kinetics of Release

M. Kehl, F. Lottspeich and A. Henschen	217
--	-----

V. FIBRINOGEN - FIBRIN COMPLEXES

Soluble Fibrinogen-Fibrin Complexes in Plasma at 37°C P. Kierulf and F. Brosstad	229
Soluble Des-AA Fibrin Clearance in Healthy Human Subjects F. Brosstad, T. Hamborg, B. Holm, H. Godal and P. Kierulf	231
Complex Formation of Soluble Fibrin Polymers with Agarose-Coupled Fibrinogen and Fibrin with Regard to Their Molecular Weight R. von Hugo, R. Hafter and H. Graeff	233
Temperature-Dependent Reversible Association and Dissociation of Soluble Fibrin in Plasma G. Müller-Berghaus, I. Mahn, W. Krell and J.-C. Bernhard	237
No Complex Formation of Des-AB Fibrin with Fibrinogen Investigated by the Hummel and Dreyer Procedure I. Mahn, W. Krell and G. Müller-Berghaus	249

VI. FIBRIN(OGEN) DEGRADATION AND CROSSLINKED FIBRIN
DERIVATIVES

On the Structure of D-Fragments of Human Fibrinogen and Fibrin W. Nieuwenhuizen, A. Vermond and F. Haverkate	255
Role of the C-Terminus of the Fibrinogen γ -Chain in Fibrinogen Ca^{2+} Binding and in Fibrin Polymerization F. Haverkate and W. Nieuwenhuizen	265
Fibrinogen Degradation by Granulocyte Elastase and Cathepsin G - Generation of Fibrinogen Degradation Products with Anticoagulant Properties M. Gramse and C. Bingenheimer	271
A Simple Method for Quantification of Fibrinogen-Chains and Early Split-Products in SDS-Disc-Electrophoresis T. Wuppermann, N.F. Rath, H.J. Zielonka and M.S. Kestilä	285
Homologues of Fibrin X Oligomers R. Hafter and Henner Graeff	291
Fibrin Fragmentation by Plasmin: Molecular Considerations and Their Relevance to DIC and Thrombosis P.J. Gaffney	307

X

Fibrinogen in Liver Cirrhosis. Fibrin Monomer Complexes and Dysfibrinogenemia with High Sialic Acid Content S. Coccheri, G. Palareti and M. Poggi	329
Influence of Various Thrombin Formation Rates on the Fibrin Stabilization Process M. Barthels	339
Some Observation on Concentration and Coagulability of Fibrinogen in Patients with Cancer, with and without Metastasis C. Miyashita, E. Dumitrescu, E. Wenzel and R.J. Meiser	347
VII. BIOLOGICAL EFFECTS OF LOW MOLECULAR WEIGHT PEPTIDES AND INTERACTION WITH OTHER PROTEINS	
Effects of Peptides Derived from Fibrinogen Proteolysis on Immunereactions and Tumor Growth M. Kopeć, W. Roszkowski, B. Gerdin and T. Saldeen	355
Plasmin and Elastase Induced Fibrin Degradation Products and Their Action on Vascular Permeability: An Experimental Study M.-L. Schmeller, R. Hafter, A. Stemberger, H. Graeff and G. Blümel	361
The Effect of Repeated Injections of Fibrinopeptides A and B on Experimental Allergic Encephalomyelitis in Rats and Guinea Pigs G. Ruhenstroth-Bauer, R. Scherer and M. Abd-El-Fattah	365
Interaction of Fibrinogen with Its Platelet Receptor Requires the Native Structure of the Molecule and Divalent Ions G. Marguerie and E.F. Plow	369
Studies on the Binding of Tissue Plasminogen Activator to Fibrinogen and Fibrin E.K.O. Kruithof and F. Bachmann	377
Fibrin Binding and Transamidation Reactive Domains of Fibronectin H. Hörmann, M. Seidl and H. Richter	389
AUTHOR INDEX	397
SUBJECT INDEX	399
